# Friends Of The Family . . .

LOOK at the packages on your pantry and bathroom shelves, and see what a multitude of brand names you recognize. Some of them have been familiar for years. You may have made the acquaintance of others only a few weeks ago. But even these are not suspected strangers. You have bought them confidently because they were advertised. And it is the same with your sheets and towels, your shoes and clothes, your electric appliances, the car in your garage—nearly everything you use.

Advertised products have a standing that commands respect. They are not nameless, but vouched for by responsible firms. The fact that they are advertised is in itself an indication that their standards of quality are strictly maintained, that they represent honest value.

As science and discovery go on, newly developed products are constantly being advertised—ready to help you save money and improve your standard of living. Every advertisement of such a product you read in your weekly paper is a letter of introduction to a new and possibly useful friend.

It will pay you to read the advertisements in this paper every week. By so doing you will meet many choice products—worthy to become friends of the family.
