Edenton Band Goes To Camp Leach On Monday, May 29th

Director McCullers Has Already Outlined Program

C. L. McCullers, director of the popular Edenton High School band, announced Tuesday night that the organization will again go to camp this summer, leaving on Monday, May 29, and return Monday, June 5. The camp will be held, as last year, at Camp Leach in Beaufort County.

Mr. McCullers stated that the camp will be properly chaperoned and will also include four band directors, four life guards and two swimming instructors. Four hours each day will be devoted to instruction on instruments and the program calls for various contests, including swimming and boating events.

Parents of a number of the children, some of whom attended the camp last year, have already signified their intention of accompanying the young folks, all of whom are looking forward with a great deal of interest to the trip.

Farmers Get AAA Data By 'Farm Plan'

E. Y. Floyd, AAA executive officer at State College, says farmers are being offered first-hand information about the application of the 1939 Triple-A program to their farms through what is known as the "farm plan."

County AAA committeemen are meeting with each farmer to help him work out his "farm plan," which is an outline of the way the program works on the individual farm in 1939, Floyd points out. Through this personal contact with the committeeman, the farmer who desires to participate this year will be able to obtain information as to the application of the program to his farm.

These "farm plan" conferences include a discussion of the soil-depleting crop allotments for the farm, and the working out of a list of soil-building practices which will enable the farmer to earn the maximum payment, the AAA officer said. The list of soil-building practices includes those most needed on the farm and which are not routine farming practices.

The "farm plan" also contains information about rates of payments, rate of deductions, and credit which will be given for each soil-building practice, Floyd explained.

Any farm operator who does not have the opportunity to work out a "farm plan" with his committeeman within the next few weeks should contact the county farm agent's office or his local committeeman to obtain this service, Floyd advised. A copy of the "farm plan" will be given the farmer to help him carry out the program on his farm.
