## CERTAINTY . . . .

Say it a few times. Think of exactly what it means. And you will find that it is—almost—nonexistent. Except, perhaps, for death, which is life's most certain certainty. We must, in other words, be prepared for the UNCERTAINTIES of life. The storms, the hurricanes, the volcanic eruptions, the cyclones and floods, the droughts and fires, the personal accidents, and more uncertainties, too numerous to mention. Our best provision against them is the security of money in the bank, with which we can meet emergencies, and which can permit us to resume normal living, once the unexpected has passed.
