

Rotarians Staging Attendance Drive

John Graham and C. E. Kramer Chosen as Leaders of Sides

At last week's meeting of the Edenton Rotary Club it was decided to stage an attendance contest to continue for four weeks. In charge of the contest will be John Graham and C. E. Kramer, who were named by President Spec Jones as captains of two teams. The captains will choose their sides similar to choosing up for a baseball team and the contest will no doubt stimulate attendance during the four weeks.

At the close of the contest the losing side will be required to entertain the winners, which will no doubt be in the form of an oyster roast.

At last week's meeting Charles Wales made a splendid address during which he explained Edenton's water. Mr. Wales presented specimens of both hard and soft water, to which he added an equal number of drops of soap and by shaking the water showed the difference in effect of the two kinds of water. While Edenton's water is pure, Mr. Wales explained that it proves right costly due to its hardness which forms scales in boilers and pipes, besides requiring a much greater amount of soap or powders to secure desired results.

December Was Record Month For Studebaker

J. H. McMullan, local Studebaker dealer, was informed this week that December sales of 14,522 units at the factory not only were a record for the month but represented the largest volume of business done in any month since August, 1928. Fourth quarter sales of 36,942 units were the largest of any quarter in more than eleven years. Sales for the year of 114,196 units were considerably more than twice those of 1938 when 52,605 units were sold.

"Studebaker closed its most successful sales year in more than a decade with unfilled orders the largest in our history for a year-end," said Paul G. Hoffman, president. "The substantial success of our new low-priced car, the Champion, is responsible in large measure for the highly gratifying results for 1939. We sold more Champions in the nine months the car has been on the market than we had projected for its first full year."

CRESWELL P. T. A. MEETS

The Creswell Parent-Teacher Association met in the school auditorium Thursday evening for the regular monthly meeting. The president, Mrs. E. S. Woodley, presided at the business session. The resignation of Mrs. W. W. Bateman as publicity chairman, was accepted with regrets, and Miss Mary Foy Peterson was appointed to succeed her.

W. S. Riddick as program chairman presented the following program: The Spider and the Fly, by Ada Virginia Hopkins; Piano Solo, Moonbeams on the Lake, by Edna Rae Spruill; A talk, Cultural Cooperation with Latin America, by Dr. G. A. Martin.

Do as you would be done by is the surest method that I know of pleasing.—Lord Chesterfield.

CENTER HILL

Mrs. Willie Byrum Friday afternoon.

Ruth, young daughter of Mr. and

Mrs. Oscar Boyce, is improving after several days illness.

Anna Lee and Sarah Margaret Asbell have whooping cough.

We made this statement on the Air

... now we repeat it in print

“A GOOD MANY confusing things can be said...in fact sometimes *are* said...about gasoline. The important thing, however, for you to remember always is to buy the product of a company in which you have the utmost confidence... a company whose avowed policy is to manufacture and sell only the finest products that skill, science, and great resources make possible.

“This is the policy of Gulf. Its gasolines, Good Gulf and No-Nox, are today greatly im-

proved over what they were even six months ago... just as six months ago they were even better products than they were the year before. All this is done as a matter of course, and it is the result of forever keeping pace with every known means of product improvement.

“With Gulf the policy of constantly improving the quality of its products is a pledge... a pledge that you motorists will find maintained whenever you stop at the Sign of the Gulf Orange Disc.”

Now... new
... improved

THAT GOOD GULF

... a regular-priced motor fuel that compares favorably with many higher-priced gasolines. Because it's refined to meet the specific needs of the locality in which it is sold, That Good Gulf Gasoline gives complete satisfaction in power, mileage, and smooth, all-around performance.

GULF NO-NOX

... a super-fine fuel that no regular-grade gasoline—regardless of the claims made for it—can touch for anti-knock value. No-Nox gives lightning-like starts... permits more rapid acceleration... delivers smooth, knockproof power under all normal driving conditions.
