**GOVERNING BODIES DISCUSS PROBLEMS**

(Continued from Page One) could not share in the expense of a proposed remedy.

Adjourning shortly before noon, the Commissioners and Bufflap went to the dock to make a survey and decide upon some course to pursue in making it adequate for boats to safely use. It was tentatively agreed that what temporary work is done should be of a permanent nature for use in completing the project after the war is over. Plans call for a new row of piling just outside the present row of old and rotten piling, many of which are submerged. On these piling, however, will be heavy timbers at top and bottom for the purpose of sheet piling when more permanent improvements are made. The space between the present dock and the new row of piling will be filled in, according to the plans as agreed upon by both the Commissioners and Town Councilmen.

The cost of the emergency improvement is estimated to be in the neighborhood of \$3,500, and the committee from Town Council was instructed to secure a bid and present plans to both groups as early as possible so that the work may be done in time to benefit shipping of local crops by boat.

**IN MEMORIAM**

M. T. Lane

Brother M. T. Lane, of Route 2, Tyner, N. C., was born on July 17, 1895. He met his death on November 26, 1943, as a result of being thrown from his farm cart when struck by a car, on the highway at Belvidere. Though carried to a hospital, he lingered only a short time, and passed away.

He was a prosperous farmer, with broad visions, and high ideals for his family. In early manhood he joined the Chappell's Hill Baptist Church, and was a member thereof when he died. He was faithful as Sunday School superintendent, as teacher church clerk and deacon. During the more than fifteen years that the writer, his pastor, was privileged to work with him, he was almost never absent from the church services; and his spirit of cooperation was something beautiful to experience.

He is survived by his wife, Mrs. Mary Elizabeth Lane; by two daughters, Seva and Vida Lane, and one small son, M. T. Lane, Jr., of Route 2, Tyner, N. C. Also surviving him are five brothers and three sisters: E. J. Lane, Arthur Lane and L. H.

**The Natural Side Dresser**

Over 500,000 tons of Chilean Soda have been brought in for this year's crops. More is expected in time for side dressing, but there are distribution complications. The War Production Board and the War Food Administration control distribution of all nitrogen supplies under an allocation program. Principally, this program takes into account three things: (1) total supply of nitrogen products; (2) their respective locations and capacities; (3) crop requirements. So, if Chilean Soda happens to be scarce in your section, it is a war-time dislocation, a temporary scarcity.

If you haven't been able to get the Chilean Soda you need for top dressing and side dressing, don't blame your fertilizer man. Put the blame where it belongs . . . on Hitler and Hirohito.

A vast supply of natural soda is right where nature put it—in Chile. Large quantities are ready for shipment. Every possible ton of this vital material is being brought here in time for this year's crops.

**OUR APPROACH TO THE VANISHING PINT**

Banish your "shortage" cares? We can't 'cause it's true that Carstairs White Seal whiskey's hard to get. That's because we've got to ration it, to keep it from becoming the "vanishing pint." But we think you'll like our approach to the problem. You see, the Perfectly Balanced Blend won its favor with its quality. Well, we won't sacrifice that quality—even though our prewar reserves are dwindling. So while our rare whiskey's not plentiful, when you do get some it's as pleasurable as ever. And nowadays that's something.
