Voters Of Nation Re-elect Roosevelt For Fourth Term

Early Returns Indicate **President Will Carry** 30 States

COUNTY VOTE 1,480

Republicans Admit Defeat Late Tuesday Night

On the basis of election returns Wednesday morning, voters of the nation on Tuesday re-elected President Franklin D. Roosevelt for a fourth term as chief executive, following a campaign in which Governor Thomas E. Dewey, of New York, Republican nominee, aided by a number of large daily newspapers, lambasted President Roosevelt and the New Deal unmercifully.

Late Tuesday night, after returns reflected the trend of the election, Governor Dewey conceded the reelection of President Roosevelt and sent a telegram congratulating him upon his success. Leading newspapers which were supporting Governor Dewey, also saw the handwriting on the wall as returns flooded in and conceded defeat around midnight.

Of course, returns are far from being complete, but on the basis of reports early Wednesday morning, President Roosevelt was far ahead in 30 states which totaled 334 electoral votes, while Governor Dewey was leading in 18 states, which had 197 electoral votes. To be elected a candidate must carry enough states to secure 266 electoral votes.

Democrats also held the upper hand in North Carolina, where Pres-(Continued on Page Six)
