

# Organization Set Up For Administration Of GI Bill Of Rights

## Veterans of World War II Eligible to Secure Loans

Veterans Agricultural Loan Committees, recently established by the Secretary of Agriculture to assist the Veterans Administration with the administration of the Farm Loan Feature of the G. I. Bill of Rights, met in a one-day working conference in Edenton last week to study regulations under which loans to World War II veterans for purchasing and equipping farms may be guaranteed.

The Servicemen's Readjustment Act of 1944, commonly known as the G. I. Bill of Rights, authorizes the Veterans Administration to guarantee loans made by private lenders to eligible veterans to purchase farms, to repair and improve farm buildings and to purchase farm equipment. Up to 50 per cent of the loan may be guaranteed by the Veterans' Administration, provided the total amount guaranteed does not exceed \$3,000.

Any application for a loan guaranty must first be approved by the Veterans Administration. Under the terms of the Act, the Veterans Administration is authorized to call on the U. S. Department of Agriculture to assist in determining whether the loan meets the requirements for guaranty specified in the Act. The Administrator of Veterans Affairs and the Secretary of Agriculture have directed the Farm Security Administration to establish a "Veterans' Agriculture Loan Committee" in each county to review all applications and to recommend approval or disapproval to the Veterans Administration. The committee is known as the "Certifying" Committee and is made up of four members, three of whom are farmers now serving on FSA committees appointed pursuant to the Bankhead-Jones Farm Tenant Act of 1937, and the fourth member a business man who is also a veteran of World War I or II.

The County Supervisor of the Farm Security Administration is directed to serve as secretary to the committee.

Any World War II veteran who has served in the armed forces of the U. S. for 90 days or more, since

Jeanne Craine, the brilliant young actress who catapulted to stardom in "Home In Indiana," and Cpl. Barry Nelson are romantically teamed in Moss Hart's "Winged Victory," at Taylor Theatre, Edenton, today (Thursday) and Friday. The greatest story ever told of men conquering the skies, "Winged Victory" was filmed from the Army Air Force's thrill-thundering stage hit which had a sensational six months run on Broadway, and later toured the country.

September 16, 1940, and who has been discharged under conditions other than dishonorable, is eligible to apply for a loan guaranty under Title III of the Act.

In order to obtain a loan guaranty, the veteran must first locate the farm or farm equipment which he proposes to buy and then locate a lender who is willing to make the loan. The Veterans Administration is not authorized to make a loan. The loan may be made by a bank or any other lender. The veteran and the lender jointly file the application with the nearest office of the Veterans Administration. The Veterans Administration has the property appraised and then calls upon the Veterans Agricultural Committee to help determine whether the property is worth the purchase price, whether the veteran is likely to succeed as a farmer, and whether the property which the veteran proposes to buy is suitable to and necessary for the carrying out of the proposed farming operations.

Forms on which to file applications are being forwarded to banks and other lenders by the Veterans Administration.

World War II veterans interested in applying for such loans should see their local banker or their County Extension Agent for information on how to file an application.

## The Great Pasteur

Never Saw Chile's Nitrate Desert, But...

His bacterial research, which gave his name to the pasteurization process, provided the basis for one of the widely accepted explanations of Chilean Nitrate's origin.

Vast beds of Natural Nitrate in Chile's desert region are natural deposits—enough to last hundreds of years—of one of the oldest and best known fertilizer materials. Mystery of their origin long has challenged science. Many theories have developed.

Some say prehistoric plants were "nitri-fied" by bacteria in the soil. That's what Pasteur's work suggested. Others say they are decayed vegetation.

There is a belief the nitrate beds are droppings of billions of birds. Another, that electricity formed them through centuries of violent storms. Some think the beds are rotted rocks; some think they are a crust pushed up from underneath.

Perhaps the right theory com-

bines parts of all of them. Who knows? But there is one point on which all agree:

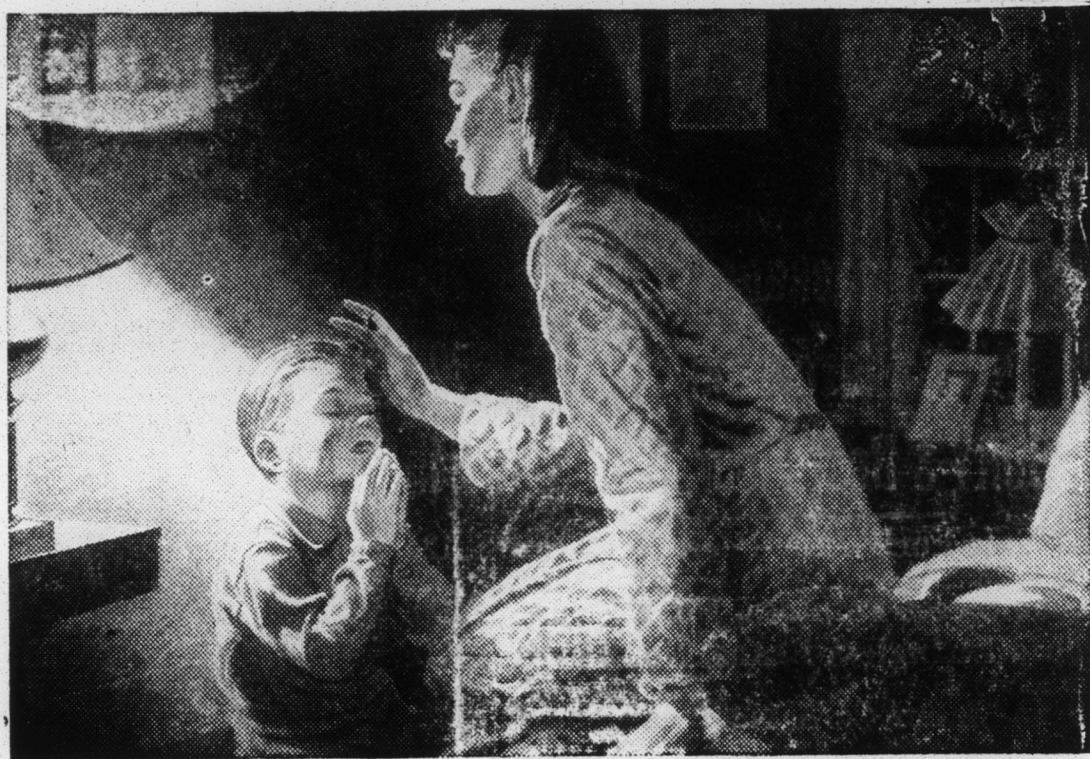

**Chilean Nitrate of Soda was created by tremendous natural processes. It is completely natural... the only natural nitrate in the world.**

Because of its natural origin, Chilean Nitrate of Soda contains, in addition to nitrogen and sodium, small amounts of boron, iodine, manganese, copper,—34 elements in all—many of which are essential to healthy plant growth.

Yes, a hundred years of research and experience agree on the importance of Chilean Nitrate's natural qualities and their outstanding performance in continued profitable farming.

Easy to Handle... Easy to Use  
Natural Chilean Nitrate comes in two forms—Champion Brand and Old Style. It reaches you in fine mechanical condition, in one-weight bags, for easy storage and handling.

**Natural CHILEAN NITRATE of SODA**

## The second greatest Reason in the World

WHENEVER you are sorely tempted to cash in a War Bond—for whatever reason—think for a moment.

There are many great reasons why you should not cash in your Bonds before they mature—before they pay you back \$4 for every \$3 you've invested.

The first—and greatest—reason is that you are an American, and you have pledged yourself to back American fighting men with

all your strength, courage and character. The second greatest reason is that by cashing in Bonds you may be risking the future of your children.

For the War Bonds you keep today can spell the security of your child's tomorrow.

Don't depend on tomorrow to take care of itself. Remember—no job is as sure as your Bond. Don't cash in a single one before its time.
