Litial Reports In Seventh Baseball Game On War Loan Drive Pleases County Chairman Byrum

Says It Reflects Trend of County to Again Meet Quota

BIG JOB AHEAD

Ten Community Chairmen Named to Help **Sell Bonds**

Though the Seventh War Loan drive is only three days old, T. C. chairman of the Chowan County War Finance Committee, on Tuesday night was greatly encouraged over initial reports coming in from scattered portions of the county. Of course, these reports are far from being complete, but, said Mr. Byrum, it more or less reflects the trend of Chowan County people in the desire to again meet the quota set for the

Incidentally, The Herald has been in error in previous statements relative to Chowan's overall quota. It has been stated that the overall quota was \$442,117, when as a matter of fact Mr. Byrum says it is \$385,000. Of this amount, as has been stated,

the Series E bond quota is \$141,000. "I feel confident that Chowan will again meet its quota in full," said Mr. Byrum Tuesday of this week. "But to be successful means that some very hard work will have to be done by the workers and that our citizens must realize the un-portance of this particular war loan. All of us will have to be willing to invest all that we possibly can in or bonds."

r. Eyrum said that though the in Europe has been won, the ed and while reports from the area encouraging, it is necessary to provide plenty of fighting material which will hasten the end of hostilities and thus the saving of many

Mr. Byrum feels encouraged with having the support of a corps of a corps of capable community chairmen, most of whom have had experience in previous drives, and who. he says, are again vitally interested

while in Edenton Prof. D. F. Walker will be in charge.

Mr. Byrum again emphasized the Series E bond quota of \$141,000, which must be purchased by indivi- T. Griffin, Richard Baer and John A. located on town property, the lease duals. "These are the smaller bonds, he said, "and while some people might think that a bond or two of this denomination will make little difference, it must be remembered ascertain how many to prepare for. that if many of our people join in the purchases, it will rapidly mount into figures of no little consequence."

Mr. Byrum on Tuesday did not release any figures of sales for the first few days of the drive, and due to the size of the county's quota, he urges everybody in the county to consider seriously the need to back the government and then invest as much as possible as soon as possible.

Dr. W. A. Leggett Now Patient In Hospital

Friends will regret to learn that late last week Dr. W. A. Leggett was admitted as a patient of Park View Hospital in Rocky Mount, where he underwent treatment in the hope of escaping an operation. However, his condition had not improved satisfactorily and on Tuesday night it was learned that he would undergo an operation Wednesday.

To the People of this Community

The 7th War Loan objective is four billion dollars in Series E Bonds. At this time last year Americans had oversubscribed two war loan

quotas, each three billion dollars in Series E War Bonds, It is obvious your personal share must be greatest of

war loans.
And yet it
may be no higher than or even less than the combined amount you invested in bonds in the 4th and 5th War Loans.

Why should you continue to put

every dollar above the cost of the necessities of living into ex-tra bonds? 1. Uppermost you owe an obligation to your fighting men and women to back them to the limit as long as any enemy military strength remains. 2. Think about Iwo Jima for a moment—sacrifice on the battlefields is still a way of life for your relatives and friends in uniform. 3. The self-interest motive is at a new high. Civilian goods are now scarcer than ever before. Every dollar you spend for non-essentials works for higher
