

Arts-Crafts Program At Edenton USO Club

\$3,000 In Prizes Offered By Popular Science Monthly

With \$3,300 in prizes to aim at, service men stationed at the Edenton Naval Air Station are gaining extra incentive in the arts and crafts program at the local USO Club on Broad Street. The GI handicraft contest, sponsored by Popular Science Monthly will close at 6 P. M. on Monday, April 1, but there is still time to complete entries and have a chance at the top prize of \$1,000 or 50 other awards of \$25 each.

Leather, plexiglas and sea shells are among the materials provided at the club and various tools to help in the work are also available.

Although the contest is open only to service people, Miss Louise Morgan, Edenton teacher in charge of the USO arts and crafts program, says there is plenty of room and material

left for those interested primarily in learning a craft or developing a particular hobby.

A show case, exhibiting several articles made at the club, has been put on display in the USO lobby and it is planned to change the exhibit from time to time in order to give a better idea of the variety of articles it is possible to make at the club. Monday night is the usual arts and crafts night but materials are available all the time for anyone interested.

Ralph Parrish President Of Tuberculosis Group

(Continued from Page One)

together." He paid tribute to Mr. Taylor for his untiring efforts during the early stages of organization and for his interest in effective methods in combatting tuberculosis.

Present at the meeting was Frank W. Webster, executive secretary of the North Carolina Tuberculosis Association. He was introduced by Mrs. J. A. Moore, who paid tribute to his work. "If North Carolina ever wipes out tuberculosis, and it will," said Mrs. Moore, "much of the credit will be due Mr. Webster for his work in the long fight."

At the outset of his remarks Mr. Webster paid tribute to Mrs. J. A. Moore and Mrs. R. C. Holland, for their efforts in fighting tuberculosis. "Interest and faith in their leadership," he said, "is reflected in the seal sales in Chowan County." Mr. Webster stated that the income from seal sales jumped from \$223 in 1934 to \$1,319 in 1945. He was very much encouraged over the interest aroused in Chowan County and expressed the belief that much good will result due to organizing.

Mr. Webster stated progress is shown in the fight against tuberculosis, presenting figures which showed that in 1900 the national death rate caused by tuberculosis was 200 per hundred thousand, while in 1944 it dropped to 40 per hundred thousand. In North Carolina the death rate dropped to 32.8 per hundred thousand and in Chowan County the rate was 47.6. He also stated that 1944 was the first year North Carolina's rate was lower than the national rate.

"In spite of the reduction in the death rate," said Mr. Webster, "56,000 persons in the United States died

of tuberculosis in 1945. Of this number, 1,400 were in North Carolina and six in Chowan County. During the last five years tuberculosis caused 7,979 deaths in North Carolina and 33 in Chowan County."

In closing his remarks he emphasized four essential phases of the work which are necessary to carry on a successful association. These are case finding, treatment, after care and rehabilitation, and protection of the tubercular family against economic distress.

Before adjourning the meeting President Parrish appointed two important committees, these being a committee to draft a constitution and by-laws and a program and budget committee. Geddes Potter was appointed chairman of the constitution and by-laws committee, together with Phillip McMullan and W. P. Jones.

W. J. Taylor, Jesse Harrell, Mrs. R. C. Holland, Mrs. J. A. Moore, Geddes Potter, J. G. Perry and Rodney Harrell were appointed as members of the program and budget committee.

Nine Petitions For Paving Dirt Streets

(Continued from Page One)

cemetary, under whose direction a man will be employed to work, as well as the policy of the cemetary determined.

Another very important matter confronting Town Council was nine petitions requesting paving of dirt streets. These were:

Oakum Street, from Church Street to north line of Bond property.

Albemarle Street, from Norfolk Southern Railroad right of way to Broad Street.

Carteret Street, from Norfolk Southern Railroad right of way to Granville Street.

Freemason Street, from Norfolk Southern Railroad right of way to Granville Street.

Gale Street, from Norfolk Southern Railroad right of way to Broad Street.

Granville Street, from Carteret Street to Virginia Road.

Gale Street, from Granville Street to Mosley Street.

Mosley Street, from Church Street to Albemarle Street.

Church Street, from Mosley Street to Norfolk Southern Railroad right of way.

A motion was made and passed to authorize Town Clerk R. E. Leary to sign the petitions for the Town where Town property was involved.

Four ordinances were also adopted during the meeting, one of which will eliminate all parking on East Church Street. This ordinance was passed primarily for the purpose of any argument by the State for by-passing

Edenton due to lack of room on the street.

Another ordinance has to do with the regulation and operation of taxicabs in Edenton.

One of the ordinances prohibits parking longer than 10 minutes on the east side of Broad Street in front of the Post Office, while the fourth ordinance provides for the purchase and display of a city automobile license tag by every person who operates an automobile in Edenton after expiration of a residence period of 90 days.

The text of these ordinances will be found in the Town Council proceedings which appear on page two of this issue of The Herald.

With so many matters to be considered the Councilmen remained in session until a few minutes before midnight.

State College Official Speaks To Rotarians

Chancellor J. W. Harrelson, of State College was the principal speaker at last week's Rotary meeting, when alumni of State College were also special guests of the Club. Mr. Harrelson was introduced by H. W. (Pop) Taylor, State College Alumni secretary.

During the course of his remarks Mr. Harrelson said State College's principal goal is to work for the advancement of per capita income and living standards of the people of North Carolina through a long-range program of technological education and research. He explained the functions and growth of the college and said efforts are being made to extend the services of the school to a larger number of people in the State.

Two Youngsters Go On Pilfering Spree

Two Edenton youngsters went on a pilfering spree Thursday night but were picked up before making very much progress. The two boys were Charlie Hudson, Jr., 14, and James Munden, 17.

After being arrested the boys admitted entering L. E. Emminizer's store on Church Street, where they stole \$12.50. The same night the glass in the door of W. J. Yates' service station was broken but Mr. Yates could not discover anything missing, it being believed that they were scared off. The boys were picked up at the Triangle Service Station, which, police say, the youngsters admitted intending to enter. They gained entrance to the Emminizer store by climbing through a

back window, which happened not to be locked.

The Hudson boy was tried in juvenile court Monday by E. W. Spires, who ordered him committed to the

reformatory. Munden, who has already been an inmate of a reformatory, was given a preliminary hearing in Recorder's Court Tuesday and was held for trial in Superior Court.

The Armed Forces Preferred Them

AND TODAY THE DEMAND IS HEAVIER THAN IN ALL HISTORY FOR

LARGE VIRGINIA TYPE PEANUTS

It is to your advantage, Mr. Farmer, to grow the Peanut people want to EAT!

The Armed Forces were quick to recognize the superiority of large Virginia Type Peanuts, a premium type peanut which has long been associated with this area. Today, the superior qualities of large peanuts of the Virginia Type are recognized not only by the Trade's heavy demand, but every government production program has provided premium prices for large peanuts . . . even during the war when the need was for oil peanuts of any kind.

Now, with no restrictions on acreage, growers will again be in position to claim premium prices for peanuts that meet these standards. The large

Virginia Type is a peanut of distinctive characteristics, and is in demand because of its size and other superior qualities.

A price schedule equal to 90 per cent of parity is guaranteed in 1946; and this guarantee amounts to substantially the same prices as were guaranteed last season.

So, to help maintain this area's position of prestige among the peanut producing areas of the world—and because large Virginia Type Peanuts will pay you more per acre—we urge you to PLANT THEM THIS YEAR TO CAPITALIZE ON THE ADVANTAGES THAT EXIST!

TO INSURE A GOOD STAND DO THIS

- 1 Select your seed peanuts with care. Your crop begins with the seed you sow.
- 2 Shell by hand, if possible. This way you'll get only the best, with no splits or inferior peanuts.
- 3 Then, we recommend that you treat your seed. (Consult your county agent on this).
- 4 Have your soil tested. Your county agent will help. It will pay you in the long run.
- 5 Fertilize according to the county agent's recommendations. He knows your farm.
- 6 Follow his advice on dusting. But, above all, don't waste time and money planting poor seed.

THERE ARE NO RESTRICTIONS ON ACREAGE IN 1946

THE LARGE VIRGINIA TYPE PAYS MORE PER ACRE
