

Future Of Chowan College In Balance

Vital Meeting Will Be Held In Edenton on March 18th

In joint assembly in Edenton on March 18 the people of the Chowan and West Chowan Baptist Associations will face the responsibility of deciding on two major questions to determine the future of Chowan College at Murfreesboro. The century old institution is romantically cherished in the hearts of alumni and friends as a guiding light that has blessed the section's motherhood with greater religious and educational light.

Re-opening plans approved by the West Chowan Association in 1944, and favored by the Chowan Association in 1945, came upon unforeseen obstacles because of the unsettled Wake Forest question during 1946. Many people have become disturbed because of the unsettled fate for Chowan College. In the present veil of uncertainty, many benevolent citizens have volunteered their pledge of full support for re-opening of the institution at the earliest moment.

The Rev. Lonnie Sasser, director of the Chowan College Re-opening Campaign, says he finds sufficient interest among the people of the two associations to carry forward plans for re-establishing the school to a creditable status as an educational institution.

"There has never been a greater need for colleges in North Carolina," says Mr. Sasser. "Even if the Wake Forest Junior College is established, Chowan re-opened, and other junior colleges continued, the need will not be filled for years to come in North Carolina's expanding demand for higher education."

The two questions to be decided by the associations at the March meeting in Edenton will be:

1—Do the Associations wish to carry on the campaign to re-open Chowan College?

2—If the decision is against opening the College, then what shall be done with the property?

Laymen are requested to think

clearly over the matter and be present at the meeting to align their support behind a decision for the betterment of this section of the State.

Chowan's Saving Bond Buying Total \$238,973.50 In 1946

T. C. Byrum Urges Continued Buying of Bonds

Sales of United Savings Bonds, Series E and G, in Chowan county during the 12-month period ending December 31, 1946, totaled \$238,973.60. Broken down by series the year's sales, at issue price, were as follows: E Bonds \$156,173.60, G Bonds \$82,800.00.

This information was contained in an annual report on U. S. Savings Bonds sales issued this week to T. C. Byrum, Chowan county Savings Bonds chairman, by Allison James, State Savings Bonds director, in Greensboro.

Mr. Byrum announced that according to the report, sales of Savings Bonds for the entire state for the same period were: E Bonds \$61,661,399.88, F Bonds \$6,522,866.00, G Bonds \$39,008,890.00.

"Despite price increases and disruptions of production in the first full year of peace since 1941, Savings Bonds sales in both the county and state have exceeded all expectations," Mr. Byrum stated. "This huge backlog of savings, together with the war-time Bond savings, of which 70 per cent is still in the hands of the purchasers, will go a long way toward maintaining a stable economy and in avoiding a depression in Chowan county and in our state."

Byrum says, "We must keep right

on saving and building for the future with Savings Bonds. A dollar saved is better than a dollar earned these days."

ENACT CRIME THRILLER
Los Angeles.—Two young men, George Essayian, 19, and Karnig Fesjian, 22, pleaded guilty of robbing Miss Opal Swick while she was en route to a bank. They declared that radio crime programs gave them the idea.
