THIS WEEK'S BIBLE THOUGHT

DIVINE SONSHIP BANISHES LIMITATIONS: Is not this the carpenter's son? Is not his mother called Mary? and his brethren James, and Joses, and Simon, and Judas? And his sisters, are they not all with us? Whence then hath this man all these things ?- Matt. 13:55-56

The Spirit Of Chowan Lives On

There was a moving, mighty, inexhorable spirit prevalent at the crowded meeting held in the Edenton Baptist Church on Tuesday. There was an undercurrent which stowly spread throughout the body of the Church as each impassioned, solitary voice rose up, one by one, here and there, and all around. It seemed that the voice of "old Chowan" had finally gotten an audience people were beginning to take heed. Speaking through the lips of young and old, the "spirit" of Chowan College rallied an overwhelming vote of confidence to smash the threat to its existence. There could be no doubt in the minds of anyone as to how the people felt. Not only our good Baptist brethren, but even members of other religious beliefs who were present. People who are ready and willing, it is reported, to "lay it on the line in cold hard cash". Peaple who couldn't remain quiet, couldn't allow a heritage to be thrown away. The heritage belonging to the kids of Northeastern North Carolina.

There are those who, because of the expressed difficulty in past years, and the seemingly hopeless task of arousing what was termed by some 'a totally in-different people", would have had an end to this thorn in the fact. in the fiesh. They who will go home now with thanksgiving in their hearts and a prayer that the sentiment expressed be carried through to a right conclusion. The die is cast. Through the vote of the entire body present, against approximately eighteen or twenty, the Baptist brethren of the Chowan and West Chowan Associa-tions have expressed their will. Chowan will live on! We on the sidelines, who were moved to the core by the impelling, irresistible spirit expressed, say that if this tremendous, surging, overwhelming force be imparted to the home folks, Chowan College will live on-and gloriously!

Let's Not Fail

It is somewhat disappointing that Chowan County has not yet reached its quota in the Red Cross Fund Rais-ing Drive. Up to Tuesday Captain L. A. Patterson reported \$2,000 turned in which is \$500 short of the \$2,500 quota for the County.

Of course, Captain Patterson is confident that \$2,500 will be realized, for of his reports turned in, none have come from the rural area, where it is not as convenient to complete a canvass as in town. He feels certain that at least \$500 will come from the rural canvassers.

Captain Patterson is very anxious to wind up the drive and to that end he urges every canvasser to make his or her return by the latter part of this week.

Chowan County has always met and gone beyond the Red Cross quota, so that The Herald hopes, when all re-ports are in, the long-standing record will remain un-broken.

Careful driving is being stressed, in connection with safety on the highways, but some words should be said about careless walking

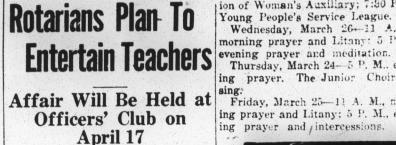

Ever been home-sick? If you have, you will have some idea about the plight of Raymond Ward, who is homesick in the Nth degree to come back to Edenton. Shortly before his mother died he was taken to a nursing home in Norfolk, where he has been confined for the most part in a room, which is altogether foreign to his make-up. Of course, he is crippled, but in Edenton his make-up. Of course, he is crippled, but in Edenton one of his greatest joys was to be wheeled around and greeted by many of his friends. Raymond wants to come back home, and from my meager information, I don't blame him. Anyway, Mrs. George Williams has agreed to care for Raymond, but cannot do so until she can secure a larger house. What is needed for Ray-mond to realize his great desire is for someone to take are for him until Mrs. Williams can move to larger care of him until Mrs. Williams can move to larger quarters. If there is anyone who will care for Raymond temporarily, it is expected to pay a fair price for the trouble and inconvenience. Anyone who is willing to offer their services should communicate with C. W. Ward in Elizabeth City or Mrs. J. H. McMullan at the locai Welfare Department. Yes, Raymond wants to come back home—he's homesick.

Well, at least two of the 11 bassinets at the hospital are now in use, for the stork arrived in two instances. are now in use, for the stork arrived in two instances. Mr. and Mrs. Louis George Wilkins are the proud par-ents of a son and Mr. and Mrs. Murriel Byrum are proud of a daughter. In both instances mother and baby are getting along fine, as is the case with the grandparents. It is the first time Mr. and Mrs. Walter Wilkins have been grandparents and the same is true of Mr. and Mrs. Graham Byrum. In fact, I about came to the conclusion that the grandpappies were going to have the babies instead of the two young mothers. The Wilkins boy was the first to be born in the hospital, which is not the only record he has, for he also can boast five grandmothers. There are one great great grandmother, two great grandmothers and then, of course, two "regular" grandmothers. Gosh, if he ever gets around to seeing 'em all, he'll be liable to be a spoiled youngster, for 1 know something about grandmothers and their, grand-children. Anyway, here's hoping all of the bassinets at the hospital are put to use. If they are, maybe we'll be able to organize a "Grandpappy Club." I haven't joined anything in a long time now

It was Gus Moore, I believe, who was telling me not to get excited if I got a fish bone in my throat. "Just let it alone," he said, "and it will soon turn into a jelly-like substance and pass off." Yeah, but what in the dickens must a guy do in the meantime? But I'm wondering if a pair of glasses are in the same category, for I lost mine and about the only explanation I can make is that I would be a substant of the same reading. I thought swallowed them. Sitting in my home reading, I thought I put the things in my pocket, and had gone nowhere except to my car and then to The Herald office. Upon arriving at the office, they were gone. Strict search has failed to find the things, and come to think about it, I fell asleep while reading and had my mouth open. I've given up finding the glasses, for I'm of the opinion they went the same route as the fish bone Friend Gus was talking about. So much so, in fact, that I've got to go to Norfolk and get fixed up so that I can see.

Scottish Rite Masons will hold a big party at the Officers Club at the air station next Wednesday night at 7:30 which will attract Masons from all over this section of the State and their wives. Ed Harding will be the principal speaker for the occasion.

People are not always doing what some others might think, which was the case last week when Mrs. Raymond Umbaugh dropped in the office. She was telling me that a relative from Indiana was planning on coming to Eden-ton and wanted to know something about the best time to go fishing and the kind of fish caught. Well, in the first instance, the best time to go fishing is when a fellow has some bait and time to spare. I was telling her the kind of fish caught around here and after each kind she made a few marks on a paper with her pencil. First, of course, I told her we catch bass. She drew a line or two and stopped. Then I told her we catch speckled perch. Down went another line and I thought she was drawing pictures of the fish. Noticing sort of a rainbow shaped line, I said, "No, a speckled perch is not shaped like that—it is more of a wider fish." Gosh, that's when I was surprised. "Why," she said, "I'm just taking down in shorthand what I must write in a letter to Ray's
