To The Voters Of Edenton

I wish to state that I will be a candidate for the office of Mayor of the Town of Edenton in the May Primary.

I am seeking this office at the solicitation of a large number of citizens, who have requested me to do so solely in the interest of efficient and economical city government. They assert that my record and past experience as Mayor, together with my abiding and continuing interest in the welfare of the Town will justify my candidacy.

If elected, I can give the office practically all of my time, and if the voters desire my services, I will be glad to render the best of which I am capable.

Respectfully,

J. L. WIGGINS

A MESSAGE FROM THE SECRETARY OF WAR

How you can help YOUR ARMY DO ITS PART FOR PEACE

With the President's proposal for the discontinuance of Selective Service on March 31, America will rely on voluntary enlistments for the maintenance of the Regular Army at authorized strength.

In view of world conditions today, this is a step of the gravest importance to every American citizen. Never before in history has any nation raised and maintained a million-man army by the volunteer system alone. Our ideals, our belief in individual freedom, our safety and our duty to promote world peace—all are bound up in this decision.

This is your Army, and voluntary enlistment is your choice. It must not fail. With your help it will not fail. The Army must continue to provide adequate occupation forces overseas, to supply these forces, and to help in keeping America strong and secure.

Your help and understanding can do much to encourage a steady flow of 3-year voluntary enlistments, necessary to sound training and the efficient performance of the Army's task.

When you discuss this subject with your sons, brothers, husbands or friends who may be considering an Army career, bear in mind the advantages offered by a 3-year enlistment. Among them are the choice of branch of service and of overseas theater where openings exist, and the opportunity for thorough training in valuable skills.

A job in the new Regular Army compares favorably with the average in industry, and has more opportunities for promotion than most.

You can help by giving your respect and support to the man who enlists voluntarily—to do his part in carrying out your country's world-wide obligations to build a peace that will endure.
