

## 1946 Peanut Crop Is About Cleaned Up

### Several Mills Complete Operations For This Season

According to reports, practically all Virginia type farmers' stock peanuts in the Virginia-Carolina section have passed out of the hands of farmers except for stock held for seed purposes.

In some sections supplies of good seed stock are scarce. No sales of farmers' stock were reported last week. Several mills in North Carolina and Virginia have completed their cleaning and shelling operations for this season. Many are sold out very closely and the available supply is limited mostly to shellers clean-up cars and some resales. The demand for cleaned and shelled goods was active and the market was stronger. Sales and quotations for shipping point, per lb., were reported as follows: Virginia type, clean d jumbos 17 1/4-18c; fancy 15 3/4-16c; shelled, extra large 23-24c; mediums 21-22c; No. 1 17 1/4-18 1/2; and No. 2 15 1/2-16c.

Friendly Thoughts by **Quinn Funeral Home**

Real friendships help to glorify life. Holding a friend who is worth having makes a better man of each. The value of friendship can to some extent be appreciated but never computed. It is as immeasurable as space and as quietly comforting.

To give more service than can be measured by material calculation should be the aim of every professional whose relationship is of such an intimate nature.

## WHAT HAVE THEY IN COMMON?

The giraffe is the one animal that cannot utter a sound of any sort.

Your telephone cannot make a sound of any sort either—unless it is connected with necessary cable and central office equipment. There is still a serious shortage of this equipment, although telephone instruments are slowly becoming more plentiful. Unfortunately, for both you and our company, we cannot provide expanded service until this long-awaited equipment arrives.
