

## U. S. Army Mobile Recruiting Unit In Edenton Next Week

### Army Air Force Display In Front Post Office May 26-27

The Mobile Recruiting Unit from Pope Field is scheduled to arrive in Edenton next Monday, May 26, to be on display two days. This unit consists of troop carrier equipment that present a graphic picture of what the Army Air Forces offer young men in the way of education, skills and trades.

There is a 75-MM howitzer inside the fuselage of a CG-15A glider mounted on a 25-ft. flat bed trailer. A technical machine exhibit comprises a moderate sized machine shop. The center of attraction is a 23-ft. van, equipped with a display of operational equipment currently used in radio communication, radar detection and electronic navigation.

The focal point of the radar display is the "Loran" gear. This is

the radio long range navigational device which proved so trustworthy to pilots on patrol from tiny island bases in the Pacific covering great stretches of ocean with no visible land marks to guide them. Many pilots predict that the "Loran" gear is the answer to all future transoceanic airplane navigation.

Mounted on a 40-ft trailer is a cut-away P-47 Thunderbolt engine with instruments showing its detailed operation. There is also a mock-up arrangement of the hydraulic system and landing gear of the P-47, plus a complete instrument panel from a C-47 transport plane, work-horse of the Ninth Air Force (Troop Carrier). Arrangements are being made to show authentic Air Force, Sound motion pictures of actual aerial combat in the ETO and the Southwest Pacific.

Experienced personnel will be present to answer all questions about the display and give information concerning the peace-time Army Air Forces. The public is cordially invited to visit this authentic display in front of the Post Office.

### Edward Bass Again Enlists In U. S. Army

U. S. Army Recruiters have announced that Herbert E. Bass enlisted at Fort Bragg for three years in the Corp. of Engrs. He enlisted in the grade of Technical Sergeant. Bass, whose address is Route 1, Edenton, was signed up by Army Recruiters on their regular visit to the Edenton Post Office last week.

Bass served in the Army all during the war. He was discharged at Camp Grant, Ill., on February 13, 1946. He was a major at the time of his discharge.

The personnel of the Army Recruiting station reminds all interested persons that representatives of that office are in the post office lobby every Thursday all day to answer all questions and will give complete information regarding the many opportunities and advantages offered by the new peace time Army.

**Milk a la Tray**  
The mistress was exacting, and she had the new maid flustered. One of her orders was to bring a glass of milk every evening at seven o'clock. The first evening the maid appeared with the glass of milk in her hand. "Jane", said the mistress sharply, "don't ever do that again. Always bring it on a tray."

The following evening Jane appeared at the door with a worried look on her face and a tray full of milk in her hands.

"Excuse me, ma'am," she said anxiously, "but do I bring a spoon with this, or do you lap it up?"

### Broccoli in Dress Clothes

It was Bill Webster's idea—a local Cooperative Packaging Association. The farmers just bring their produce to a converted ice plant, put it on a belt, and it comes out neatly wrapped in cellophane.

Naturally, it looks a whole lot better and more appetizing in the stores. And the farmers share in the expense and management of the Association, which is paying off in better business.

Because how you show your product is as important as its quality. Take a popular beverage like beer.

It's not only important that it's pure and wholesome—but it should be sold in surroundings that are clean, attractive, law-abiding.

That's why the brewers have their Self-Regulation program. When a tavern isn't a credit to the community, the brewers go right to the owner and ask him to clean up his place. From where I sit, that's right in line with the modern trend of better service to consumers.

### WHEN WAITING IS NECESSARY

If there were anything more we or our manufacturers could do to speed up the delivery of new central office equipment, cable and wire, it would be done. This material is needed before we can provide telephone service for everyone still waiting. But today's delays are beyond our control. In the meantime, we will do our best to serve as many as possible.
