

Inspection Reveals Sulphur Dusting Is Reducing Leafspot

Thrips Causing Considerable Injury to Plants In Chowan County

The second application of sulphur dust was applied to 4-H peanut projects last week. On this trip around with the dusting machine another dad had obtained a machine and was dusting his whole crop along with the club member's, leaving 15 projects necessary to use the two-row portable duster. County Agent C.

ITCH

Don't Suffer Another Minute
Are you tormented with itching of eczema, psoriasis, rashes, athlete's foot, sunburn, eruptions, rectal itching, rough hands or face or other skin troubles? For quick relief and good results use Victory Ointment. Developed for the boys in the services, now offered to the folks back home. White, greaseless antiseptic, cooling, pain relieving, vanishing. Does not irritate. Safe for children and First Aid. Money back guarantee. A war development, not a substitute. Get VICTORY OINTMENT — the finest. Jars or tubes.

ON STAGE AT TAYLOR THEATRE

On the Taylor Theatre stage, Edenton, in person, today, (Thursday) will appear Morris (Tex) Nelson and His Texas Springtime Revue, a western musical extravaganza.

W. Overman reports having approximately 40 club members conducting peanut projects and all of them have dusting machines available except 15.

On visits to 4-H peanut projects, taking the dusting machine for their use, a check was made on the progress of leafspot on the undusted areas and the areas which received one application two weeks ago. The check was made by picking at random 100 leaves down in the plants scattered over a good area. On an average the undusted area showed

40 leaves with leafspot and a total of 76 spots per 100 leaves. The dusted area on the average showed 18 leaves with leafspot and a total of 26 spots.

Thrips have done considerable injury in most fields and many farmers are mistaking thrip injury for leafspot.

Heavy Responsibility

Two nurse maids were wheeling their infant charges in the park, when one asked the other: "Are you going to the dance tomorrow night?" "I'm afraid not," she replied. "What!" exclaimed the other. "I thought you were so fond of dancing?" "I'd love to go," explained the conscientious maid, "but to tell you the truth, I'm afraid to leave the baby with its mother!"

IN MEMORIAM

In memory of little Joseph Taylor Copeland, son of Mr. and Mrs. Lester T. Copeland, who passed away June 23, 1947:

Our dear little darling,
Was as sweet as a rose;
How much we loved you,
God only knows.

Each Sunday Grandmother looked forward
To seeing your dear little face;
But we know you're at rest with Jesus,
In a far much better place.

You were only a little rose-bud,
Just only six months old;
But God wanted you in His garden
Where the gates are made of gold.

There's nothing else that we can do
As the days and months roll by;
But prepare to meet you again,
In your heavenly home on high.
—By Grandmother, Mrs. Dixie L. Dixon.

State Pig Crop For 1947 Shows Increase

Fall Crop Estimated to Total About 662,000 Head

North Carolina's 1947 spring crop of pigs totaled 831,000 head, an increase of six per cent over last year, according to the cooperative Crop Reporting Service.

The number of sows farrowing this spring was up 6 per cent over last spring and nearly 9 per cent above the 10-year (1936-45) average. The number of pigs saved averaged 6.2 per litter the same as last year, but slightly above the 10-year average of 6.1 pigs per litter.

The monthly distribution of farrowing this spring shows an increase in the percentage of farrowings occurring in the first three months of the spring period. This spring (December 1-June 1) 45.5 per cent of the sows farrowed during December, January and February compared with 40.0 per cent last year.

North Carolina hog producers' reports on breeding intentions indicate a total of 165,000 sows being kept for farrowing this fall. This is an increase of 5 per cent over the number farrowing last fall and nearly 2 per

cent above average. If these intentions are carried out and the number of pigs saved per litter is the same as the 10-year average, the 1947 fall pig crop would total 662,000 head, about 3 per cent above the 1946 crop.

Thorne and Vick Tied For Top Honors As Colonial Pitchers

According to figures released by Bill Cozart, statistician for the Albemarle League, J. D. Thorne and Herman Vick share honors for the best

percentage for Colonial pitchers, with .800 each. They are followed by Lester Jordan with .700 and Jobie Griffin with .600.

Jordan has pitched 101 innings as compared with 99 1/3 innings by J. D. Thorne, 87 2/3 innings by Herman Vick and 83 2/3 by Jobie Griffin.

While on the mound Thorne has allowed 94 hits and 38 runs. He struck out 64 batters and walked 7.

Vick gave up 36 hits which netted 22 runs, fanned 15 and walked 9.

Jordan allowed 81 hits and 31 runs. He struck out 76 and walked 8.

Griffin allowed 30 hits and 17 runs. He struck out 21 and walked 15.
