

Series Community Meetings Ended

143 Men and Women Attend In Nine Communities

Last week County Agent C. W. Overman and Miss Rebecca Colwell, home agent, completed a series of community meetings on "A More Liv-

able Home and the Home Orchard." These meetings were held in nine communities of the county with approximately 143 men and women attending. About 40 per cent men and 60 per cent women constituted the attendance. Miss Colwell discussed the farm dwelling and its surroundings, furniture and accessories to fit the needs and comfort of the farm family and each individual. Mr. Overman discussed the home orchard, its management and its value to the farm family. Both discussions were supplemented by projected pictures. Judging by the questions and participation by those attending, considerable interest was shown in the subjects.

and four growers signed entry blanks.

Dan Holler and James T. Conner, Extension cotton and entomology specialists respectively, assisted with the discussions.

Extension Forester Aids Local Farmers

Wednesday of last week R. W. Graber, Extension forester, was in Chowan County to assist with woodland management. During his stay in the county Leroy Boyce of Tyner was advised how to sell his tops from timber cutting as pulpwood rather than allow them to waste. Mr. Boyce and Archie Asbell, a neighbor, were also advised on woodland management.

A visit to the North Carolina Pulp Company holdings at Bandon revealed a fair to good stand of pine reproduction where scrub trees and bushes were cut in the fall of 1946.

Improved Cotton Growing Studied

Extension Specialists on Program at Local Meetings

With Tuesday of last week devoted to improved cotton growing, it is hoped that the time spent will prove profitable to cotton growers in Chowan County this year.

A meeting of cotton ginners was held at County Agent C. W. Overman's office at 10 o'clock with three ginners operating last year in attendance. Better ginning methods, cooperative grading and classing were discussed.

At 2 o'clock in Edenton and at 7:30 at Cross Roads farmers' meetings on "Better Cotton Production" were held. At the close of the meeting in Edenton a meeting of certified cotton seed producers was held, during which the five-acre cotton contest was explained

"This farmer tried natural soda on his corn and got good results. I'm passing his experience along — hoping that it may help you raise a better crop, too."
Uncle Natchel

FARMER'S FORUM

"I've heard a lot recently about increasing corn yields. I didn't realize that 100 bushels of corn takes as much nitrogen out of the soil as there is in more than 600 pounds of nitrate of soda. I decided to see what would happen if I put back that much soda in side dressings, the last one when the corn was in full silk. I made over 200 bushels on one acre."
