

Skeet Shooting New Phase Of Activity By Chowan Wildlife Club

New Sport Inaugurated At Naval Air Station Wednesday

Members of the Chowan Wildlife Club turned out Wednesday to try their skill at skeet shooting at the Edenton Naval Air Station. President Rodney Byrum was much encouraged by the enthusiasm displayed. "This is one of the outstanding drawing cards for new members," said Mr. Byrum.

"Skeet shooting is a major sport among many sportsmen clubs over the United States," said another official of the local organization, "and it gives a shooter a good workout for practice shooting on the wing."

The directors of the Chowan County Wildlife Club are urging its members and the public to respect the rights of the owners of the land upon which they hunt. They emphasize that no farmer would be opposed to a hunter shooting on his land provided the sportsman was thoughtful enough to ask permission and to avoid any damage or intrusion on the lives of the owners or their families.

President Byrum pointed out emphatically that it was the purpose of the Wildlife Club and its members to promote good will, sportsmanship and conservation of wildlife. He extended a cordial invitation to anyone who is willing to abide by rules of the organization and who loved wild-life, hunting and fishing to unite with the club. County memberships are \$1.00 and town memberships are \$2.00, stated President Byrum.

Veterans' Classes Now In Full Swing

Members Apparently In Earnest to Secure Education

A complete high school curriculum for the first year of high school is now in effect for veterans with English, history, biology and mathematics being taught by the Rev. W. L. Freeman and Peter A. Carlton. The classes which began last week will advance according to the ability of the G.I. students states John A. Holmes, superintendent of schools. In other words they will advance as rapidly as possible in order to prepare them for their high school diplomas.

Asked as to why they were attending the courses, some of the veterans gave as their reasons the desire to prepare themselves for better jobs, since most of the decent jobs require at least high school graduation.

All the members of the two sections of the veterans training school center, which consists of elementary and high school, draw subsistence pay from the government for attendance. Others who are interested should apply to Mr. Holmes.

Peter A. Carlton, who teaches biology and mathematics from 5 to 7:30 P. M., expressed delight with the sincere and enthusiastic interest displayed by the veterans. "One can readily denote an attitude of serious intent in the way these men follow every lesson taught," stated Mr. Carlton.

Mrs. Charles F. Russell is continuing to teach the elementary grades in the veterans' school.
