AWNINGS and CANOPIES MADE TO ORDER

Why Should You INVEST In Awnings, Mr. Retailer?

Well-planned window displays can bring to a sudden stop that part of the "parade" that passes your shop and to whom you're interested in selling. But—if your merchandise becomes faded you don't need us to tell you that mark-downs and discounts will follow just as naturally as night does day. Do the wise thing. Invest—and we mean INVEST—in awnings for your store windows and eliminate this possible waste once and for all. We can turn out a perfect job for you at nominal cost.

Weekly Health Talk

BY DR. GEORGE T. CRAWFORD
CHIROPRACTIC PHYSICIAN

NEURITIS

NEURITIS is a painful disease in which there is inflammation of one or more nerves. Sometimes the condition begins with fever, but usually with numbness, pain and weakness in the parts affected. These parts are commonly the arms and legs. As the disease gets worse the symptoms increase, so that the patient cannot walk. Sometimes paralysis develops. The cause of this disease lies in the spine where a misaligned vertebra is producing pressure on a nerve supplying the affected part of the body. The pressure here causes inflammation and excessive heat. As a result of the heat, blood vessels become swollen and the fluid portion of the blood filters into the nerves. This prevents the nerves from performing their work properly and is the cause of the various nerve symptoms, such as numbness, pain, muscular paralysis, burning sensation. If this condition of the nerve is allowed to continue, certain changes take place in the nerve itself to make the paralysis permanent, because these changes are in the nature of a replacement of the nerve tissue with a harder tissue which cannot do the work of a nerve tissue. All that is necessary to prevent these hurtful changes from taking place is to take out the inflammation.

Chiropractors are trained to locate the vertebra which is choking the spinal nerves and to adjust it to release the pressure. As soon as this is done the inflammation subsides and the fluids which have filtered into the nerve substance are absorbed. The nerve again does its work. The symptoms will then be quickly removed and health will be restored. Many people have milder forms of neuritis and feel pains in different parts of the body. To those I would say, give Chiropractic a chance to restore your burning sensation. If this condition of health, and you will again have a zest for living.
