

Robert S. Marsh Joins Agents On Educational Tour

Group Goes to Tennessee and Missouri on Inspection Trip

Robert S. Marsh, assistant county agent in Chowan County, was among a group of 62 county agents, representing all sections of North Carolina who took an educational agricultural tour May 16 through May 25. The first stop was near Paris, Tenn., in Henry County, where the county agent of Henry County took the group to three farms where they observed how balanced farming practices are carried out. This section of Tennessee has primarily a livestock producing area, therefore the emphasis is on dairy and beef cattle, hogs and sheep. Small grains and pastures are very important to all farmers who carry out balanced farming practices. The group observed excellent crimson clover, red clover and vetch, and also good winter pastures on the various farms which were visited. All the civic organizations of Paris are 100 per cent behind the agricultural program in Henry County. The two banks in Paris are also backing the agricultural program, as they have a full time representative who works with the farmers. The banks' representatives give advice concerning farm loans, arrangements for such loans to be made, and gives supervision where needed.

At Springfield, Missouri, the guests visited several dairy farms which are using the latest agricultural practices. As the land is very rolling in this section, soil conservation is a great problem and the farmers must be careful in the use of the soil. Dairy farming is the greatest single enterprise of this particular section of Missouri. Most herds consist of Guernseys and Holsteins, or Jerseys and Holsteins. Pastures are particularly good at this time of the year.

ATHLETES FOOT GERM Imbeds Deeply To Cause Painful Cracking, Burning, Itching. HOW TO KILL IT

A treatment, to be efficient, must PENETRATE to reach the germs and be POWERFUL to kill them. TE-OL, the only product we know of made with undiluted alcohol, penetrates. Reaches and kills more germs FASTER. FEEL IT TAKE HOLD. IN ONE HOUR

If not COMPLETELY pleased, your 35c back at any drug store. TE-OL is clean, odorless, easy and pleasant to use. Apply FULL STRENGTH for insect bites or poison ivy. Today at LEGGETT & DAVIS, INC.

but frequently go to the bad in late summer due to hot weather and drought. Most dairy farmers in this section appear to be prosperous. However, the lack of adequate farm labor has curtailed many of their operations.

One of the most interesting visits of the entire trip was the one to the Doane Agricultural Service, Inc., of St. Louis. This service is devoted entirely to agriculture and analyzes trends of agriculture, and suggests improvements. Mr. Doane showed two ears of yellow corn which look to be the same. However, one corn is a regular variety but the other is a corn which furnishes starch to replace the starch in tapioca. During the war the supply of tapioca was cut off and this new corn was developed. The significance of this new corn is that two kinds of corn can be grown in the same field and yet be non-competitive. In case Tappa corn is not needed to furnish starch, it may be fed for the same purpose as regular corn.

LAYMEN'S DAY SUNDAY AT METHODIST CHURCH

Laymen's Day will be observed at the Edenton Methodist Church at next Sunday morning's service. Laymen of the church will be in charge of the service, to which the public is invited.

FIRE AT EVANS MILL

Fire broke out at a dry kiln at the Evans Lumber Mill on North Broad Street Friday evening about 6:30 o'clock, which threatened the entire frame structure. Edenton firemen, however, were soon on the scene and in short order extinguished the blaze. Fire Chief R. K. Hall stated that damage amounted to about \$50.

To The Voters Of Chowan County

I am especially grateful to the sixty-six persons who saw fit to favor me with their support in the recent Primary Election. With two local candidates in the field, I understand the position of the other voters in Chowan County.

I hope that as time goes along, I may get to know better all the people of Chowan County, and that I may be the recipient of your friendship.

Buoyant answer to Back Road and Boulevard

White sidewall tires, as illustrated, available at extra cost.

REMEMBER that rough patch of road you yonder where the ruts and ridges make a washboard seem smooth?

Recall the tiring tenseness brought on by the drum and hum of road noise and tremor even over smooth concrete highways?

Well, clock away the miles in this stunningly styled Buick — and meet up with the sweetest answer to such matters this side of cloud cruising.

"It's a ride that's soft and smooth as velvet," folks tell us. And we tell them it comes from a host of things.

It comes from the ample road-weight of a two-ton car built low and wide — and so beautifully balanced it handles light as a baton. It comes from the leveling buoyancy of Buick's all-coil springing which puts a pillow of deeply coiled steel at each wheel to soak up the bumps and ripples.

It comes from the softness of bigger, lower-pressure tires that cushion away road tremors and roughness — from the sure-footed, swerve-free steadiness of Buick's extra wide Safety-Ride rims, widest in the industry.

And it comes in special measure from a brand-new engineering gem we call Vibra-Shielding which banishes vibration build-up. Here for the first time you're freed from the motoring fatigue brought on by tiny tremors piling up into bigger ones. Here your miles are made moss-smooth and quiet — long journeys become mere jaunts.

So why delay knowing the most buoyant answer to any road you ever traveled?

Come visit us now. Know at first hand the distinctive styling, the flashing action, the velvety ride over highway and byway that are Buick's and Buick's alone.

Then follow your heart's desire and get your order in promptly. We'll take it in proper sequence whether or not you have a car to trade.

When better automobiles are built

BUICK

will build them

REASON FOR THE VIBRA-SHIELDED RIDE

Placed with scientific exactness, 3 fat cushions of special composition cradle the engine so as to control its vibration frequency. Engine vibration is thus kept "out of tune" with those that might come from other parts of the car. The result is to shield car occupants against firing pulsations, cut road noise, make engine sensation almost imperceptible and motoring practically fatigue-free.

BUICK alone has all these features

- * DYNAFLOW DRIVE (Optional, Roadmaster Series)
- * TAPER-THRU STEERING (Super and Roadmaster)
- * VIBRA-SHIELDED RIDE * SAFETY-RIDE RIMS
- * HI-POISED FIREBALL POWER
- * ROAD-NITE BALANCE * RIGID TORQUE-TUBE
- * QUADRIFLEX COIL SPRINGING
- * SOUND-SORBER TOP LINING (Super and Roadmaster)
- * DUOMATIC SPARK ADVANCE * FLEX-FIT OIL RINGS
- * TEN-SMART MODELS * BODY BY FISHER
