

Questions Clarified About Registration

Registrants Should Be Prepared to Furnish Information

State Selective Service Headquarters has announced that, from inquiries received, there appeared to be two questions giving the public the most trouble.

One is whether persons who registered in 1946 and 1947 under the Selective Training and Service Act of 1940 are required to register again. It was pointed out that no registration under the 1940 Act would have any bearing upon the coming registration under the Selective Service Act of 1948, and that all males between the ages of 18 and 26 are required to register.

The second question is whether members of the National Guard and active or inactive reserve of the Army, Navy or Marine Corps are required to register. Men of this category are required to register, although in most instances they will not be liable for induction under the Act.

A staff officer, in discussing the coming registration, placed emphasis upon the ways in which the public could help expedite the registration process. He urged that everyone present himself for registration on the dates provided for registration of his age group. He pointed out that this would distribute the registration load and relieve congestion.

A registrant can speed up his own registration by having the following information in his possession at the time he presents himself for registration:

1. The local board with which he was registered under the Selective Training and Service Act of 1940.
2. If the registrant was ever rejected for service in the armed forces, he should be able to give the date of such rejection.
3. A registrant who served in the armed forces of the United States or a co-belligerent nation since September 16, 1940, should be able to give the branch of armed forces, his service or serial number, the date he entered the armed force, the name of the last organization he served with, and the date of his separation from the service.
4. If the registrant is at present a member of the National Guard or the active or inactive reserve of the Army, Navy or Marine Corps, he should be able to give the branch of the armed forces, his service or serial number, the date he entered the service, and his present grade and organization.

EARWORM DEMONSTRATION

A demonstration was started with J. E. Perry of Ryland Community on controlling earworms in late corn. Five per cent DDT dust is being used at the rate of about 15 pounds per acre. The first application was made when approximately 10% of the silks had emerged. Two or three applications of dust will be made at 3 to 4 day intervals as the silks emerge.

State Forester Here For Lumber Advice

With the cooperation of State Forester, Richard Robertson, timber on the Henry Smith farm and J. Elton Jordan's farm was observed last week. On Mr. Smith's farm he was advised as to better forestry practices for improving his woods. Mr. Jordan was advised relative to selective cutting and timber management in order that his woodland may be improved and provide maximum production.

Notice To Our Customers

This hurts us as much as you, but we cannot possibly operate by selling milk under cost. The rise in price for us was effective August 16, 1948. Effective August 20, 1948, our prices will be as follows:

QUARTS HOMOGENIZED VD	29c
QUARTS CREAM BUTTERMILK	29c
QUARTS GRADE "A" PASTEURIZED	28c
QUARTS REGULAR BUTTERMILK	21c
PINTS GRADE "A" PASTEURIZED	16c
HALF PINTS GRADE "A" PASTEURIZED	12c
PINTS CHOCOLATE MILK	16c

We know that milk prices are getting high, but we also know that labor, gasoline, tires, trucks and other necessities in milk delivery are high. Then look at the prices of other foods. The following table gives you a comparison in food value and price:

IN ENERGY VALUE ONE QUART OF MILK CONTAINS 776 CALORIES

1 qt. milk (in calories) equals approximately 2½ lbs. chicken at 60c lb.
1 qt. milk (in calories) equals approximately ½ lb. steak at 90c lb.
1 qt. milk (in calories) equals approximately ¾ lb. pork chops at 75c lb.
1 qt. milk (in calories) equals approximately 10 eggs at 66c per dozen.
1 qt. milk (in calories) equals approximately 7 lbs. tomatoes at 20c lb.

We are sorry to have to raise our price of milk. We know that milk is a necessary food, but if it costs us it has to cost you. We hope to have you bear with us through these days of high prices. We thank you very much for your patronage.

Good news travels fast... and the talk of every town these days is the new Futuramic Oldsmobile! People everywhere are passing the word along about this spectacular new 1948 model. Wherever it goes, people just naturally gather 'round for a better view. It's the Futuramic appeal of this exciting new Oldsmobile! They like its new "Futuramic" look—the dramatic sweep of its ultra-modern lines... the striking

simplicity of its interior design. And they go for its Futuramic performance, too... thanks to Hydra-Matic Drive's "no-clutch, no-shift" driving ease and the thrill-filled action of WHIRLAWAY. Everyone's spreading the good news about this great new Oldsmobile—for everywhere the Futuramic goes, everybody "goes for" the Futuramic! No wonder more and more people are saying—"It's SMART to Own an Olds!"
