

Aces Place Two On All-Conference Team

Russell Wheeler and Al Habit Easily Win Berths

According to a vote taken in the Northeastern Conference, the Edenton Aces placed two players on the all-conference football team. Russell Wheeler easily won a berth on the team by polling 13 out of a possible 14 votes, while Al Habit polled 10 votes for an end position.

The Aces also placed Frank Habit as center on the second team, while Earl Goodwin, Hector Lupton, Jr., and Keith Emminizer won honorable mention. Frank Habit was signally honored by being voted the best center in the conference.

76 Lose Lives In Traffic Accidents

Figure Only Three Per Cent Lower Than Last Year

During October, 76 persons lost their lives in traffic accidents on North Carolina streets and highways, bringing total traffic deaths for the year to 584, the Motor Vehicle Department has announced. The October figure was only three per cent lower than for the same month last year, when 78 persons were killed in traffic mishaps; however, fatalities for the year show a 13 per cent plus reduction over 1947.

The October fatality report showed that 22 persons died in pedestrian accidents, a 19 per cent decrease over last year; 16 persons met their deaths in motor vehicle collisions, a decrease of six per cent over last year; three were killed in auto-train collisions; 29 persons were killed when their cars ran off roadways, an increase of 45 per cent over the same month last year; one death resulted when a car overturned in roadway, a decrease of 80 per cent over October of 1947; one person died when his vehicle struck a fixed object; three others were killed in non-collision accidents; one died when his vehicle struck an animal.

The Department commented that it was gratifying to note a reduction in pedestrian fatalities—19 per cent lower than last year. It reported, however, that 22 pedestrian deaths in one month is still far too many, and urged motorists and pedestrians

alike to be more cautious. For the first time in many months, no bicycle deaths were reported. However, 15 persons were injured while riding bikes, five of them seriously, and 10 only slightly.
