

Local Marines Now Rounding Out Grid Team For Season

About 60 Candidates Report to Head Coach Jack (Whitey) Lee

Aside from witnessing football games played by the Edenton Aces this season, football fans will have an opportunity to see local Marines perform on the gridiron. Already a large group consisting of about 60 candidates have reported to Head Coach Lt. Jack (Whitey) Lee and are now going through a general conditioning program consisting of wind sprints, calisthenics and basic fundamentals of the game.

A schedule of games has been arranged which calls for two practice games with Cherry Point and 10 varsity games. The two practice games will be played September 2 and 9, the first game at Cherry Point and the second in Edenton.

The varsity schedule follows:
 September 17—Elon College, there.
 September 24—Marine Barracks, Norfolk, here.
 October 1—NAS Jacksonville, there.
 October 8—Fort Monroe, here.
 October 15—Awaiting confirmation.
 October 22—Camp Lee, there.
 October 28—ECTC at Greenville.
 November 5—Fort Story, here.
 November 12—Awaiting confirmation.
 November 19—Norfolk Naval Base, there.

Miss Colwell Stresses Safety In Kitchens

"A place for everything and everything in its place is a primary requisite in the kitchen," says Miss Rebecca Colwell, home demonstration agent for the State College Extension Service.

At this season of the year, she says, the farm kitchen is one of the busiest places on the farm with the preparation of meals for extra farm workers. A little extra care will prevent many costly accidents.

A safe step-stool should be a part of the working equipment of every farm kitchen. This makes it unnecessary to use boxes or chairs for reaching high places. Each step should be wide enough to stand upon, including the top step, and the surfaces should be non-skid or roughened so that there will be no slipping.

The National Safety Council cautions that pan handles be turned away from the front of the stove. Cover scalding liquids before carrying them and use a cloth or pad to lift them. Keep knives and matches out of children's reach. Don't use gasoline or kerosene to start fires, keep all dry cleaning operations out of the house, check stovepipes and flues regularly, store all medicines, insecticides and drugs away from the kitchen where children cannot reach them, and apply first-aid immediately to any injury resulting from a mishap no matter how trivial it seems.

Commissioners' Proceedings
