When Your Back Hurts

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood. You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with stinging and burning is another sign that something is wrong with the kidneys or bladder. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

closed its recruiting office during the encampment. Now that the men are back with plenty of "know how," they will be competing with each other in trying to fill up their platoons in order to be the first to get their mortar squads fully manned.

There is room for a full platoon of men and of course those first in and most qualified will be eligible for the ratings. There are many ratings open all the way up to Sergeant. This means good pay, fellowship, athletics, retirement benefits and service to the community, state and country. Sgt. John Asbell, administrative assistant, is on hand at the army in Edenton every day from 9 A. M. until 5 P. M. Interested candidates may apply there or to the commanding officer of the company, Captain William P. Jones. Ages are 17 to 34, with special allowances made for those with prior service.

Important For 4-H Club Members To Check Corn Yield Prior To Harvest

All 4-H Club members who have an acre of corn as a project this year should be sure that the yield has been checked by the County Agent or the assistant County Agent before the corn is harvested.

In case a club member and his dad are ready to harvest his corn and the yield has not been checked, they should contact the County Agent's office a few days before harvest date so that the yield can be determined.
