Free Booklet On Forestry For Schools

A new 16-page booklet listing forestry materials available without charge for classroom use is now being distributed to schools in 48 states.

The bibliography, "Forests, their Use and Conservation," eventually will be sent to more than 100,000 school and college officials by American Forest Products Industries, a non-profit educational organization.

Material listed in the annual publication deals with the importance of trees, the Nation's only natural renewable resource. Booklets, wall displays, and a motion picture, "Trees for Tomorrow," described in the bibliography, present facts intended to create a better understanding of forestry problems.

This year's release contains a special section announcing, by states, where "Trees for Tomorrow" can be ordered. Also featured is a review on "The Story of Forests," a 24-page booklet designed for school children in the fourth through eighth grades.

Copies of the bibliography may be obtained free of charge from the American Forest Products Industries, Inc., 1319 18th St., N. W. Washington 6, D. C.

"We had a narrow escape"

Baby puts a button in her mouth and chokes on it. Mother, keeping her wits about her, telephones the doctor. Mother, working from doctor's telephone instructions, removes button lodged in baby's throat. No ill effects to baby, but, as mother gratefully tells doctor, "we had a narrow escape." What do you think mother's telephone was worth to her at that moment? For the answer, ask yourself, "What would it be worth to me?"

YOUR KEY TO GREATER VALUE

Only one word fits it -

Wonderful!

YOU know how it usually is—slow and steady is the rule in automotive progress.

But every now and then it happens. Along comes a car that's new all over—like this one—and headlines sing the news.

Take the styling of it—fresh and smart and really exciting from its non-locking bumper-guard grilles to the jet-plane look of its fenders.

Take the outward size of it—handy in traffic, easy to garage, actually more room and a sweeter ride in fewer over-all inches.

Step inside—and stretch yourself in the biggest interiors ever found in a Buick Special, with a full twelve inches added to rear-seat hiproom.

Try the power of big 110 or 120 hp high-compression Fireball engines—sample the restful levelness of a ride that sets the standard for the industry.

Check controls—and note really big news: The luxury of Dynaflo Drive*—newest, simplest and smoothest of all modern

transmissions — is optional equipment, available now at the lowest price level yet!

Finally, look at the price tag. Measure its figures against others—and see if any car, even in the lowest-price field, gives you so much of what you want for each dollar you invest.

Tops in style, tops in room, tops in lift and life and traveling ease, a trip to your Buick dealer will show you this is wonderful in value too!

For the biggest buy of this year—and many a year to come—better go now and get your order in!
