

Bloodmobile Will Be At Edenton Armory Tuesday, Nov. 15th

Dr. Southgate Lee Explains Program Monday Night

FINE SUPPORT

Volunteers Now Being Sought to Donate Blood

At a meeting in the Court house Monday night of all Chairmen and committee members taking an active part in the blood program of Edenton and Chowan County, plans were completed for the first visit of the bloodmobile to this community November 15th.

Dr. Southgate Lee, Chairman of the Coordinating Committee of the Blood Program, stated that, "the idea of this program is to keep a constant supply of blood available to this community so that all we will have to do is to reach in an ice box and get blood of all types. Not only may you get blood in your hospital but if needed in your home you may also acquire this blood. A fresh supply of blood is kept on hand at all times. After the first 21 days if the blood is not used it is sent back to the Center in Norfolk and made into plasma."

Dr. Lee stated there are advantages in being a blood donor. "No pain at all is felt in giving blood," he said, "and it makes the donor feel better in that it stimulates blood forming organs. It also makes one feel better mentally, having done his part in saving a life." He stated that he personally has given 50 pints of blood in his life.

All healthy, male or female between ages of 18 and 60 are eligible to donate. Those under 21 must have written permission from their family. About one hour is required to go through the simple procedure. This including the time it takes the donor to go to the Armory, which is the center of this community, and back to his work or home to resume his regular active duties.

"If the need of blood in your community is an emergency," said Mr. Lee, National Guard Air Service will rush it to you by plane. All you have to do is to have your chairman meet the plane, where he will receive the blood and deliver it immediately to you. All communities visited by the bloodmobile have given their full support and it is hoped that eventually all hospitals will be included in this program."

Miss Frances Tillett Attends Meeting Of Hospital Executives Emphasizes Importance Of Providing Blood For Patients

Miss Frances Tillett, supervisor of Chowan Hospital, recently attended a district meeting of the Hospital Administration of Northeastern North Carolina.

The main topic for discussion was what is being done for plasma in hospitals.

"I was very proud of the fact" says Miss Tillett, "that out of eight representatives at the meeting, Edenton was one of the two included in the National Red Cross Blood Program."

"This program is going to mean a great deal to the people in this community and to our hospital. The purpose of the booth is to show the function of the home demonstration program and that through the 1,670 organized clubs with a membership of 40,669, the farm people are assisted with solving home and community problems, thus raising the standard of living and developing leadership.

Edenton Aces Tackle Tarboro Team Friday

Play Away After Four Consecutive Home Games

After playing four consecutive games on home soil, Coach George Thompson's Edenton Aces will travel to Tarboro Friday, where they will meet the Tarboro High School football machine.

Although the Aces managed to defeat Roanoke Rapids in last Friday night's game by a score of 6-0, Coach Thompson was not very well pleased with the brand of ball the Aces played. He, therefore, has been putting the boys through some stiff practice sessions this week, emphasizing the fact that they will have to play an improved game if they expect to come home with a victory over the Tarboro team.

The Aces appear in pretty good shape for Friday night's game and the boys are anxious to place another game in the win column.
