C. W. Overman Urges Pruning Fruit Trees

December Good Month, Says Chowan County Agent

"December is a good time to prune fruit trees," says County Agent C. W. Overman. He gives the following suggestions:

Prune young or non-bearing apple trees lightly. Remove only water sprouts or suckers that crowd the main scaffold limbs. Do not cut back the end of the main scaffold limbs or those that form work of the tree. Lightly pruned apple trees will come into bearing earlier than those that are being heavily pruned.

Open the center of peach trees but do not cut out all the small shoots growing from the upper side of the larger limbs. Head back lightly the main branches and thin out laterals that crowd main branches.

Prepare to spray fruit trees about two weeks after the leaves have fallen or after they become dormant. Spray with either oil emulsion or lime sulfur. Secure information in spraying from your county agent.

You might want to plant pear trees which are blight resistant. The Baldwin and Orient are two of the varieties that are offered for sale by nurserymen. Write me if you do not know where to get them.

E. H. S. Court Teams Split With Hertford

Edenton High School's basketball teams split in a doubleheader with Perquimans High School Friday night on the armory court, when the boys won 33 to 22 and the girls were forced to take the short end of a 29-16 score. Sharon Lupton led the Aces with four points, while Jean Perry for Perquimans copped high scoring honors with 22 points for the visitors.

John Dobson led the Aces with 10 points, and was the outstanding player of the evening. Duck Griffin and Earl Goodwin scored eight and seven points respectively for the Aces. Ben Thatch led the visitors with seven points.

Lodging Places Given 'A' Rating

Following inspection of 36 registered transient guest establishments in Pasquotank, Perquimans, Camden and Chowan counties, K. J. Eyer and J. L. Batts, sanitarians of the District Health Department, report the majority of these lodging facilities are in "A" condition. This rating means that the most of the proprietors comply fully with rules and regulations governing sanitation of hotels, tourist homes, tourist camps and other lodging places.

Mr. Batts, a former hotel man and graduate of a prominent hotel training school, pointed out that some of these establishments would compare favorably with any in the country. On the other hand, there is evidence that some of the operators are yet inexperienced, but indicate willingness to learn and bring their establishments up to the highest possible level.

Tourist lodging has expanded to an unrealized large business in this area since U. S. Highway 17 travels through the four counties of this Health District. Many compliments have been expressed by out-of-state tourists regarding such excellent accommodations.
