

Veterans' Deadline For Bonus July 1

Application Forms Now In Hands of J. L. Wiggins

Information has been released by Stephen H. Alford, District Officer of the North Carolina Veterans Commission, that July 1, 1950, is the deadline for eligible veterans of World War II to make application for their Pennsylvania State bonus.

To be eligible to qualify for the Pennsylvania State bonus, the veteran must have served more than 60 days on active service as a member of the military or naval forces of the United States, or of any of her allies, between December 7, 1941, and September 2, 1945, and was a legal resident of the Commonwealth of the State of Pennsylvania at the time of entering the military or naval forces of the United States without regard to the place of enlistment, commission or induction.

Compensation shall be payable to any eligible veteran on the basis of \$10.00 for every month and major fraction thereof of active service within the United States, and \$15.00 for every month and major fraction thereof of active service outside the United States, but no veteran shall be entitled to receive compensation in a sum to exceed \$500.00.

For veterans no longer in the service, the law makes separation or discharge "Under Honorable Conditions" one of the qualifications for payment. A certified copy of Honorable Discharge will be required to accompany all applications.

The district office of the North Carolina Veterans Commission, 206 Kramer Building, Elizabeth City, and J. L. Wiggins, County Service Officer of Chowan County, 303 Granville Street, now have application forms to be used by Pennsylvania veterans who have been discharged or separated from the service, and the veterans still in the service, as well as forms to be used by the beneficiaries of deceased veterans and for those suffering mental incapacity, and will be glad to render assistance in the preparation and processing of these applications.

Mrs. George Mack Speaker For DAR

(Continued from Page One)

General Joseph Riddick of Gates and Hugh Williamson of Chowan. During his stay in this vicinity he sojournd at the home of 'Widow Norfolk.' Our sister town of Hertford, along with other towns of the nation, boasts that Washington once slept at the Old Eagle Tavern (located across from the Court House). Perhaps he was there to consummate the purchase of land in Perquimans, which he and Fielding Lewis had bought from Marmaduke Norfolk.

"Here in North Carolina we have many memorials to George Washington, but perhaps the most famous was destroyed during the burning of our first State Capitol in 1831. This was a lovely statue by the famous Italian sculptor, Canova, which was purchased for North Carolina by Thomas Jefferson while he was traveling in Europe. This statue was considered one of the finest in existence. A copy of the original model was presented to our State by the Italians and is now in the State Hall of History."

Mrs. Mack closed her remarks with a tribute to the character of Washington written by his namesake, Washington Irving.

At the conclusion of the meeting Mrs. Lloyd Griffin served light refreshments.

"ACES"

BY FLORA MAE HARE

We played with all our might today. The coaches thought it tight. With eager eyes they watched the game

And, boy, they saw a fight! The ball was passed to center, And then on down the line, But not a fumble or mis-dribble could the coaches find

The ball is out of bounds, now the guards are all in sight Boy what a ball game!

They sure put up a fight, The Aces are riding lower this year With Coach Boswell aiding Thompson through,

We get a few fussing outs but we don't mind, we are Aces, too!

We take our places on the court, And watch the ball go through We hit the basket now and then But, we do it fair and true.

JOHN DEERE ROLL-O-MATIC "Knee Action" FRONT WHEELS

Working on beds... in deep water furrows... along the contour... over rough fields—there's hardly a condition you can name where John Deere Roll-O-Matic "Knee-Action" Front Wheels won't make tractor operation easier, smoother, safer than ever before.

Steering is much easier because the load is always balanced between both front wheels... riding is greatly improved because up-and-down movement of the front end is cut exactly in half. There's less wear on front tires, less strain on wheels because each tire and wheel takes its full share of the load.

Roll-O-Matic is just one of many exclusive and advanced features that make John Deere tractors today's leaders in modern design, just as two-cylinder economy, dependability, and long life have made John Deere tractors leaders in proved performance for the past 25 years. Come in and see us soon.
