

Annual VFW Dance Scheduled April 8th

Music Will Be Furnished By Bruce Garrett and His Mello-Tones

Edward Parker, service officer of the Wm. H. Coffield, Jr., Post, No. 9280, Veterans of Foreign Wars, announced this week that plans for the VFW's annual dance are nearing completion. This year, says Mr. Parker, an even better band has been secured than ever before, so that everyone is assured a good time.

On the committee with Parker are Z. J. Brown, J. L. Baker, Hal Davis, Jack Moore and Bill Crumme. The committee announced that there will be no table reservations this year, the policy being that tables will be on a basis of first come first served.

The dance will be held in the Edenton armory Saturday night, April 8, beginning at 9 o'clock and ending at midnight.

Mr. Parker announced that Bruce Garrett and his Mello-Tones will furnish the music for the dance. This group, according to information, is becoming more and more popular at the Suffolk Planters Club in Suffolk.

Plans Completed For Cooking School

Farmers Improve Drainage Practices

Ditches Renovated For Proper Drainage In Wet Periods

A group drainage ditch in the Rocky Hook community has been recently renovated. The ditch was improved along the section which is located on the farms, owned by Lester and W. W. Harrell. The improvement made consisted of construction for increasing the capacity of the ditch and for stabilizing the banks. According to Lester Harrell, the ditch was too small for the proper removal of the water surrounding watershed, particularly during wet periods like those which came in 1949. Parts of his crop fields, he said, were subjected to inundation and drowning out of crops. The straight or vertical ditch banks constituted a serious maintenance problem, not only because of falling in during wet spells, but because of bank erosion.

The Harrells believe the renovated ditch will be adequate to meet their needs. The water-carrying capacity of the new ditch is several times greater than that of the old ditch. The sloped banks on the new waterway, once stabilized, should greatly reduce the maintenance work necessary to keep it clear.

Mr. Lester Harrell plans to begin work on the bank stabilization job right away. Sericea lespedeza will be seeded to help prevent bank caving and bank erosion.

Mr. Harrell declares, "Hogs will not be allowed the luxury of cooling and wallowing in this ditch. I am planning to put an electric fence on both sides."

According to R. C. Jordan, of the Soil Conservation Service, 2,408 cubic yards of dirt were removed. This gave the Harrells a waterway 6 to 8 feet wide in the bottom and eighteen feet wide at the top. The improvement operations were done with a dragline excavating machine.

Technicians of the Soil Conservation Service assisted the Harrells

with the surveying, planning, designing, and layout of this ditch.

The Production Marketing Administration assisted him in defraying the cost of the renovation.

CIRCLE WILL MEET MONDAY

The Ruby Daniels Circle of the Woman's Missionary Society of the Baptist Church will meet Monday afternoon at 3:30 o'clock with Mrs. B. F. Francis.

WMU MEETING NEXT TUESDAY

The WMU of the Chowan Baptist Association will meet next Tuesday, March 28 in an all day session. The meeting will be held at the Rocky Hook Baptist Church, and a good attendance is desired.

Trained

A visitor to a large factory told the manager he could pick out all the married men among the employees. He stationed himself at the door, and as the men came from dinner he pointed to those he thought were married. In almost every case he was right.

"How do you do it?" asked the amazed manager.

"Oh, it's quite simple," replied the traveler. "The married men all wipe their feet on the mat. The single men don't."
