

New State Museum Building Is Planned

Total Cost of Proposed Building Estimated At \$3,996,000

Hundreds of thousands of school children and other visitors of school to the State Capitol every year will find three of their main points of interest—the Museum of Natural History, the Hall of History and the State Art Gallery—consolidated in a new building if plans now before the Advisory Budget Commission are adopted.

The proposed structure would be a State Museum and Archives Center, and in addition to its educational and cultural exhibits, would provide a place for safe storage of and ready access to priceless State records.

The new building also would free a large amount of office space in the three State office buildings in which the museums are now located, and also provide an auditorium and rooms for meetings of committees of the General Assembly and public hearings. The plans, as presented by a committee representing the Department of Archives and History, call for a 4-story building with 270,000 square feet of floor space. Cost of the proposed building, land and equipment, is estimated at \$3,996,000.

284 Guilty of Fraud For Unemployment Pay

Prosecutions for fraud of 329 individuals, seeking benefits from the Employment Security Commission's Unemployment Compensation fund, during the first half of 1950 resulted in 284 convictions and 45 acquittals, ESC

Chairman Henry E. Kendall, reveals. The 19 claims deputies of the Commission, scattered over the State made investigations in 1,144 cases in which fraud was indicated, finding that no fraud had been practiced in 583 of these cases. In a few others, it was found that overpayments had been made and in these cases demands for refunds were made or the amounts of overpayments were set up as claims against the individuals to whom payments may become due later. Of the 1,144 claimants investigated, 301 were reported by interviewers in local offices, 356 investigations were originated by the claims deputies and 487 were the result of checking benefits paid against wages received by the claimants.

Total amount of overpayments in the six months' period, largely through practice of fraud, was \$23,049.70, of which \$13,986.99 had been recovered. Recovery of the balance will be made, either by cash refund or deduction if claimants again become eligible for benefits.

Beginner Pullets Lay Small Eggs

There's no reason for poultrymen to be unduly concerned if their pullets lay under-sized eggs during the early stages of production, says R. S. Dearstyne, head of the Poultry Department of State College.

According to Dearstyne, it's entirely normal for egg size to be relatively small pullets first start laying. As the season advances, he asserts, the size will increase quite rapidly. A distinct pick-up should occur by November.

The real capacity of a bird or flock to produce large-sized eggs is best measured by the average weight of the eggs laid in February or March, says the State College professor.

It should be remembered, Dearstyne adds, that egg size under normal conditions of feeding and management is inherited. Some strains of birds have

been developed with special emphasis being given to egg size in the breeding program. Such strains produce larger eggs than those not bred for this purpose.

NOTICE OF SALE OF REAL ESTATE

By virtue of the authority conferred upon the undersigned in that certain deed of trust from Mattie C. Davis, dated November 19, 1948, and recorded in the office of the Register of Deeds of Chowan County, N. C., in Mortgage Book 57, at page 596, etc., default having been made in the payment of the indebtedness secured thereby, the undersigned will sell at public auction to the highest bidder for cash at 12:00 noon on Saturday, September 30, 1950, at the Court House door in Edenton, N. C., the following described real estate:

1. That lot with all improvements thereon, beginning at a point on the Northern side of West Eden Street in Edenton, N. C., at E. C. White's line and running thence northwardly along E. C. White's line eighty (80) feet; thence westwardly forty-three (43) feet to West Eden Street; thence eastwardly along West Eden Street forty-three (43) feet to the place of beginning; and being the same property conveyed to the said Mattie C. Davis by J. E. Jackson and wife by deed recorded in the office of the Register of Deeds for Chowan County in Book 3 at page 157, to which deed reference is hereby made for further description and chain of title.

2. That certain lot with all buildings and improvements thereon located directly at rear of the lot described above, adjoining said lot described above, the Mrs. O. C. Byrum property, the Hunter Jackson property, the property of David Q. Holton and others; and beginning at the northwest corner of the lot described above, thence running northwardly in the same direction as the western boundary of the property described above to the Mrs. O. C. Byrum lot; thence eastwardly along the said Byrum lot line to the Hunter Jackson property

line; thence southwardly along the Hunter Jackson line to the northeast corner of the property described above; thence along the northern margin of the property described above to the place of beginning; and being the same property conveyed to Mattie C. Davis by David Q. Holton and wife by deed recorded in the office of the Register of Deeds for Chowan County in Book 5 at page 452, to which deed reference is hereby made for further description and chain of title.

Dated and posted this 30th day of August, 1950.
MARVIN WILSON,
Trustee.

Just sharpen your pencil— and there you are!

ACROSS this broad land there are thousands of people who have been doing themselves a disfavor.

Seems they "just naturally assume" a Buick is beyond their reach—and so pass up the car they're really itching to own.

Now why "assume" anything as important to your happiness as a new car?

Why not see for yourself how delivered prices run—how close Buick matches your own budget—how frequently it is priced under some cars you may be considering?

Then—if there is a particular car in

mind—sharpen up your pencil a little.

Is it a six—or an eight, like Buick? If an eight, is it a valve-in-head eight? That adds a plus in efficiency, you know, even without the extra edge of Buick's Fireball power.

Will you ride on four soft coil springs, as in Buick—or on only two? Will the drive be through a sealed torque-tube that keeps the rear wheel assembly firmly aligned? It is in a Buick.

Do you get soft, low-pressure tires as part of the price—or as extras? Will you have bumper guards built as part of the bumper, or a one-piece cast metal grille that can be costly to repair or replace?

Does the price include air cleaner; oil filter; dual horns, windshield wipers and sun visors; an automatic dome light; self-locking luggage lid; a single key for all locks?

And is there an automatic drive*, or one in which gears still shift in normal driving?

Yes, sharpen your pencil—and there you will be, in a Buick.

Whether it's a SPECIAL, a SUPER or a lordly ROADMASTER, you'll be driving the big buy of its price class, and getting a rich bonus of driving comfort, driving thrill and "fashion-first" styling.

But you have to make the first move. You are the one who has to find out. How about starting now—with a call on your Buick dealer?

*Dynaflow Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.
