

Democrats Urged To Register For Election

News Voters May Register Saturday, October 21 and 28

Registration books opened throughout North Carolina on Saturday, October 14th, for the registration of new voters, and Chairman Everett Jordan of the State Democratic Executive Committee urged all Democrats who fall in this classification to register for the General Election on November 7th.

The registration books will be open on October 14th, 21st and 28th at the precinct polling places. Between those days registration is permitted at the home of the Registrar in each precinct.

Those who are entitled to register for this General Election are citizens who have reached the age of 21 years since the last voting and those who have completed one year of residence in the State and four months in the precinct.

Mr. Jordan called the matter of registration to the attention of all officials of the Democratic Party in the various counties and precincts in the hope that every citizen entitled to vote would take advantage of this opportunity and register for this privilege.

The County Chairman at the same time pointed out that absentee ballots may be used in this General Election. Civilians may make application for absentee ballots within 30 days before the General Election and not less than 2 days before the General election. They must apply individually to the Chairman of the County Board of Elections in their respective counties.

Men and women in the military service may not only vote by mail but are also permitted to register temporarily by mail. They may make their applications for the ballots di-

Apples And Turkeys On Plentiful Lists

Apples, turkeys, and cranberries will be among the most plentiful foods in the Southeast in November, Miss Colwell, county home demonstration agent for the State College Extension Service said this week.

This trio, tops on the U. S. Department of Agriculture's November plentiful foods list, offers good buys and good eating for Southern shoppers, Miss Colwell said.

The turkey crop for this year is a record high, cranberry production is at a near record, and the apple crop for this season, though below last year's large crop, is 10 per cent above average, USDA reports show. This season's apple harvest is estimated at 120 million bushels.

As good vegetable buys, Miss Colwell suggested onions, cabbage, carrots, Irish potatoes and sweet potatoes—all on the plentiful list for November.

In addition to turkeys, Southern markets will offer abundant supplies of hens, broilers, fryers, and pork. Other protein foods on the plentiful foods list include eggs and cheese.

Final additions to the list are honey and butter, the home agent said.
