

Thompson Speaker 'Presbyterian Hour'

Three Radio Broadcasts Scheduled to Be Made During February

Dr. W. T. Thompson will be the speaker for the "Presbyterian Hour" radio conference during the month of February. Dr. Thompson's subjects will be as follows:

February 11—"The Demands of an Infinite Love."

February 18—"Christ—An Advantage or a Necessity?"

February 25—"Four classes of People—In Which Do I Belong?"

The broadcast of February 25 will feature the choir of Austin College in Sherman, Texas.

Dr. Thompson is a senior member of the faculty of Union Theological Seminary in Richmond, Va., having served the Seminary since 1920. Dr. Thompson is considered one of the outstanding teachers and preachers of the Southern Presbyterian Church. After graduating from Davidson College and Union Theological Seminary, he held pastorates at Lexington, N. C., Knoxville, Tenn., and Mobile, Ala. During the First World War he was director of Army YMCA in two large camps in this country. As a director of a boys' camp for twenty summers, as a member of the National Preaching Mission, as a public lecturer before numerous educational groups, and as a preacher in constant demand throughout the country, Dr. Thompson has steadily extended his teaching ministry.

Legislative Summary

(Continued from Page One)
The contract expiration date was extended to January 25. On the afternoon of the 24th the subcommittee worked out a solution. With the Attorney General's approval, it was decided to transfer sufficient funds from a warehouse project to the annex and consider the warehouse along with the other 1949 items. On January 25 the contract was let. On the other hand, uncertainty marked the investigation into construction of the State Fair coliseum under 1949 appropriations. While some farm leaders underscored the need for value of the building in a public hearing on Tuesday, rumors from Washington led to a belief that the construction now proceeding would come under the National Production Agency's ban on the use of steel for non-essential purposes. Despite efforts to secure an opinion from NPA no official approval had been received by Friday, nor had the legislature's committee made its report. The probability of both federal and legislative endorsement increases each day concrete is poured and materials are purchased.

Public Welfare
The anxiety of prisoners in unsafe

jails would be allayed by SB 96 requiring an attendant on duty to inspect all cells at reasonable intervals. The same bill would prevent women prisoners from being confined more than 24 hours unless the jail has a matron. SB 97 would allow temporary confinement of the mentally disordered in hospitals and other suitable places as well as in county jails. Other bills would raise the age to which parents must support illegitimate children from 14 to 18 years (SB 94), would require judges in divorce cases to award the custody of children before signing the divorce decree (SB 95), and would make willful neglect as well as abandonment of wife or children a misdemeanor (SB 154).

Governmental Reorganization
The General Assembly now has a bill (SB 110) calling for submission of a constitutional amendment to require realignment of executive agencies so that by 1954 only 12 departments could exist under the law exclusive of those headed by elective officials and temporary commissions created for special purposes. If adopted by the people the amendment would also place all personnel of the executive branch below department heads under a merit system.

Election Laws
On recommendation of the State Board of Election bills were introduced in the Senate this week to remove all limits on the expenditure of funds in campaigns for election, to abolish use of the absentee ballot in general elections by civilians, and to require campaign literature to bear the name of the author and printer.

Criminal Procedure
Implementing a constitutional amendment approved last November, HB 112 permits indictments to be waived in non-capital criminal cases provided written consent of both defendant and his counsel is filed. HB 120 is designed to prevent a person from being prosecuted on the basis of evidence taken from him in the course of an illegal search without a warrant. HR 115 proposes a commission to study the advisability of setting uniform cost bills in traffic cases in courts below the superior court.

Labor Legislation
The House Committee on Manufacturing and Labor has announced that a public hearing will be held on HB 93, aimed at repealing the anti-closed shop law, on February 6, and on HB 108, establishing a minimum wage of 75c an hour for workers in intrastate business, on February 13.
