

State Completes 48.4 Per Cent Of Its Road Paving Goal

Roadbuilding Triples All Work Done In Pre- ceding Years

Official year-end figures show that the State Highway Commission has completed 48.4 per cent of the 12,000-mile secondary road paving goal set by Governor Scott two years ago.

Five thousand eight hundred and eleven miles paved since January 1, 1949, cover work done with the \$200,000,000 bond issue and regular Highway funds as well. The Commission had on December 31, 1950 finished roughly one-fourth of the 35,000-mile stabilization mileage also announced as a goal of the Scott Administration. Through January 1, 1951, some \$62,000,000 of the \$200,000,000 bond issue fund had been expended by the Highway Commission. Another \$55,000,000 already is allocated to specific road projects planned for completion this summer.

Dr. Henry W. Jordan, Highway Commission Chairman, estimates that the pace of roadbuilding has been tripled during the past year over preceding years largely because of the availability of bond funds. At the same time more work has been finished on the primary road system than ever before in the Commission's history.

The mid-state Sixth Division centering on Lexington, Asheboro, and Lumberton leads in amount and percentage of work finished, followed by the Southeast in the Wadesboro, Charlotte, and Salisbury area.

PRESBYTERIAN SERVICES

Services at the Presbyterian Church have been announced as follows by the pastor, the Rev. Herman Cathey:

The CO-OP "BLACK HAWK" DISC HARROW is way ahead in VALUE.

Unexcelled for the preparation of the ideal seed bed, the Co-op Black Hawk Tractor Double Disc Harrow is built strong, but with no excess weight. True balance plus light weight give the Black Hawk LIGHT DRAFT. Yet the sharp, tough La Belle discs can be set at the correct angle to give uniform penetration to the desired depth... thoroughly pulverizing the soil, mixing stubble with soil.

On land that is uneven, you'll appreciate the way a Black Hawk holds to a consistent working depth.
