THURSDAY, MARCH 22, 1951.

Red Cross Spikes Rumors

Chowan County did a splendid job of providing blood for the Red Cross when the bloodmobile was here several weeks ago. Citizens rallied to the cause to such an extent that the quota was exceeded.

However, as worthy as the cause is, there are some people who like to throw a monkey wrench in any worthwhile effort. It has been heard, and here in Edenton, that the blood donated is sold, which, no doubt has been reason for some people being reluctant to contribute

This rumor is spiked in an article appearing in the New York World-Telegram and Sun of March 9. The article follows:

Ever hear the rumor that wounded soldiers in Korea must pay \$25 a pint for the blood you donate to the

Red Cross?

Well, it isn't true. They don't pay a cent. Yet the vicious rumor has spread throughout the country. Within the past week Red Cross officials have crossed its trail in such places as New York, Columbus and Washingtone Ridiculous as it is, it even circulated in the Pentagon.

Both Red Cross and Army officials say the rumor, if unchecked, could cause serious trouble. The fact is the Red Cross collects blood in this country, processes it and transports it as required to Korea. The Army administers it without charge to any patient.

Cost of collecting, processing and distributing the blood is shared by the Red Cross and the Armed Services Medical Procurement Agency.

The Red Cross paid all the costs until last December. But the Korean campaign required rapid expansion of facilities for furnishing blood, so the Defense Department agreed to pay the Red Cross for its plasma stockpiling program and shipments to the troops.

Red Cross officials said the blood-selling lie is only one of many rumors which have been circulated to the harm of the organization. One had it that the Red Cross charges troops for donated cigarets, while another would lead people to believe clothing is sold, rather than given to needy individuals.

In one case, an official said, a story was circulated that the Red Cross had sold large stocks of underwear. An investigation was made by national headquarters.

"We found," the official said, "that a shipment of undearwear we had ordered was defective. So we sent it back to the manufacturer. The latter, without removing the Red Cross labels from the garments, sold them to a New York store, which in turn sold them at retail.

"Consumers who discovered the labels in the underwear mistakenly assumed we ourselves had sold it."

When you put off work until tomorrow you put off profits until next week.

Life would be more enjoyable if you tried to enjoy it.

Help In Duke Drive

S. Wade Marr, Elizabeth City inchairman of the Northeast North vestment broker, has been named Carolina district for the Duke University Development Program, Duke President Hollis Edens has announc-

Marr will direct solicitation of Duke ment Program campaign, which seeks o raise \$12,000,000 for increasing the University's service to the South and Edenton.

"Duke University is keenly aware of its responsibility as a leader in Southern education," Dr. Edens said in announcing the appointment. "Only through the wholehearted cooperation of Duke Alumni can this responsibility be adequately met."

This year's goal of the program is \$8.650,000 for improved dormitory facilities, more scholarships and fellowships, maintenance of a top-flight faculty, and better research facilities. Development Program campaigns are now underway in North Carolina and in areas of alumni concentration throughout the United tSates.

FORD V-8 with Overdrive

WINS AGAIN!

V-8 TAKES FIRST PLACE IN CLASS "A"

1951 MOBILGAS ECONOMY RUN

Again this year . . . it's high honors for Ford! In the most important economy trial for American stock model cars . . . the famous annual Mobilgas Economy Run . . . A Ford 100-h.p. V-8 equipped with Overdrive took first place competing against all cars in its price class, making 54.587 ton-miles per gallon* and 25.994 miles per gallon. And its companion in quality, the new Ford SIX with Overdrive, was right up there with the winner. In fact, both cars averaged better than 25.9 miles per gallon.

Traditional Ford economy, for the second straight year, has been proved in open competition. Proved on the tough 840-mile grind from Los Angeles to the Grand Canyon . . . a course that included city traffic, below-sea-level desert heat and 7,000-foot mountain passes. Ford's Automatic Mileage Maker, standard equipment on all Ford V-8's and SIXES, contributed to this great achievement by squeezing the last mile out of every drop of gasoline.

Why not "Test Drive" the new Ford at your neighborhood Ford Dealer's? There's no better way to be convinced that "You can pay more but you can't buy better!"
