Edenton's Colonials lost four of the seven games played during the week and as a result as of Wednesday were virtually tied with Elizabeth City for second place in the Virginia League, although percentage points for the number of games played puts Elizabeth City in second place by one point.

The Colonials were scheduled to play Petersburg on Hicks Field Wednesday night and the remaining home game schedule for the week is as follows: Today (Thursday) Emporia; Saturday, Franklin; Monday, Elizabeth City; Wednesday, August 1, Suffolk.

Edenton 15, Franklin 7

In Franklin Wednesday night of last week the Colonials defeated the Kildees by a score of 15 to 7. The Colonials hit almost at will and were aided in their scoring by a spree of errors made by Franklin players.

Edenton 7, Franklin 6

A doubleheader was scheduled with Franklin on Hicks Field Thursday night, but rain prevented starting of the second game as fans were drenched while going to their cars after the game was called off.

The first game, scheduled for seven innings, went into an extra inning with the Colonials coming from behind to win 7 to 6.

Franklin scored all six of their runs in the third inning on three hits. Walks and errors played a prominent part in the scoring which was climaxed when Osinski hit a triple with the bases loaded.

The Kildees held the lead at the opening of the seventh, but the Colonials knotted the score when Bagwell doubled to send in the tying runs. In the eighth Dick Brockwell tripled and scored on Messina's single to win the up hill game.

Brockwell was on the mound for the Colonials, it being his 15th victory of the season. He allowed only six hits and was never in serious trouble aside from the wild third inning.

Holland was on the mound for Franklin and was touched for 11 hits, one of which was a home run by Bagwell in the second inning.

Edenton 0, Elizabeth City 9

On Hicks Field Friday night Umpire Butler forfeited the game to Elizabeth City 9 to 0 in the ninth inning. The decision resulted after Manager-Gashouse Parker was ordered out of the game when he and Manager Paul Crawford became involved in an argument and Parker hit Crawford. FISHING — 80 YEARS AGO

Mrs. Charles P. Wales has in her possession a lengthy but interesting article written in Edenton on October 10, 1871, by Edward Wood. The subject of the article is fishing in this section and was written to the president of the Agricultural Society of North Carolina.

So interesting is this article that The Herald will print it in two or three installments.

My Dear Sir: Thinking that a few remarks on the subject of fishing, an interest so important in our section of the State, and so little understood by the people generally, would not be out of place before your body, I take pleasure in presenting to you some items of information on that branch of industry. I fear, however, that my feeble condition of health will not allow me to do the subject justice. I presume I hazard nothing in saying that our shad and herring fisheries are the most extensive in the world; while I have heard intelligent gentlemen in our mountain region say, they did not know of their existence.

Albemarle Sound, upon which most of the fisheries are located is about sixty (60) miles long, from four (4) to twelve (12) miles wide, and from eighteen (18) to twenty-two (22) feet deep in its main channel.

Its chief tributaries are: at its head, the Chowan, Roanoke and Cashie riv-

Visitors' Day Is Planned At Health Offices In District

Offices Open to Public 1 To 3 P. M. Last Monday Each Month

On the last Monday each month from 1:00 to 3:00 P. M., the four health offices in this district will be host to the general public. This plan arises from the fact that a great many people have never been to their health office, and have little idea as to what is actually being done there to protect the health of all the people. Many have the idea that only the indigent benefit from the program.

"Through communicable disease control, tuberculosis control, cancer detection, school health service, supervision of eating and lodging places, milk and other food supervision, waste disposal, and in fact the whole public health program affects the health of all of us whether we realize it or not," says Dr. B. B. McGuire, District Health Officer. We feel, therefore, that the public has a right to know how their tax dollar is being used.

After schools open, by previous arrangement, the senior high school students in all four counties may visit their county health office, or preferably the Health Center, Elizabeth City, where much more public health may be learned than at the other three offices.

Many people come to the office for some service but have not been shown through the office nor had explained to them the various activities of the department. This is the first opportunity citizens have had to be shown through the offices, and to learn more about the practical side of public health.

Some member or members of the staff will be on duty to explain the services to all visitors during the hours of 1:00 to 3:00 P. M., the last Monday each month. "If your health is important, then public health is important to you," says Dr. McGuire.
