

# DOLLAR DAYS THIS WEEK

## Many Bargains Will Be Offered Thursday Friday and Saturday

### Various Edenton Concerns Invite All Fair Visitors to Inspect the Merchandise Offered During Dollar Days And Take Advantage Of Savings

In order for visitors to the Chowan County Fair this week to effect savings on purchases while enjoying attractions at the fair, a group of Edenton merchants have joined together in holding dollar days Thursday, Friday and Saturday of this week.

In many cases items regularly selling for much over a dollar have been reduced to an even dollar during these three days, and in many other cases items have been reduced especially for Dollar Days.

Observance of Dollar Days was agreed upon a few weeks ago, to be held in connection with the fair, thereby offering money-saving values and at the same time calculated to bring many customers into the various stores to become better acquainted.

Of course, the merchants hope many shoppers take advantage of the savings offered during the three Edenton Dollar Days, but even if visitors do not care to make any purchases, they are cordially invited to visit the stores and inspect the splendid stock of merchandise available at prices as low as in stores in nearby and larger towns.

Concerns who are cooperating in staging the three Dollar Days are Belk-Tyler, Western Auto Associate Store, M. G. Brown Company, Tots & Teens, Forehand Jewelers, Quinn Furniture Company, Malone's 5 & 10c Store, Mitchener's Pharmacy, Byrum Hardware Company, Blades Lumber Company, Harrell Gas & Coal Company, Preston's, Elliott Company, Leggett & Davis, Badham Bros. Company and Cuthrell's Department Store.

The committee of merchants who arranged the Dollar Days was composed of John Mitchener, Mrs. Grady Morgan, L. T. Dunbar, J. R. Dulaney, Henry Quinn and Herbert Hollowell. Members of this committee agreed that the Dollar Days should provide sensational values and an occasion which should be attractive to all fair visitors. With this in mind, the group of cooperating concerns have placed advertising in this Dollar Day section. Readers are urged to look carefully over the advertisements, compare prices elsewhere with similar quality merchandise and make out a

shopping list of their needs.

Of course, not all of the bargains are listed in the advertising, and for that reason shoppers are especially invited to visit the various stores while attending the fair or at any other time.

Edenton's merchants therefore, hope many people will attend and enjoy the fair and at the same time effect substantial savings on purchases made during the Dollar Days.

## HEALTH FOR ALL

### THE "UNKNOWN CASE" OF TB

The chronic communicable disease, tuberculosis, ranks first as the cause of death among infectious diseases and kills more young people between 15 and 35 than any other disease.

To cut down on the frightful toll in lives and suffering which tuberculosis takes, we must prevent the spread of the disease from person to person. To check the spread of tuberculosis, everyone who has the disease in an active form must be found and placed under treatment.

It is estimated that there are half a million cases of tuberculosis in this country. Of this total, only half are known to the health authorities. This means that there remains a quarter of a million "unknown cases"—people not known to the health authorities, most of whom are not under treatment and many of whom do not even know they are ill.

A person can have tuberculosis without knowing it. The onset of tuberculosis is usually slow and the disease may be in an advanced stage when the symptoms become obvious. Therefore, the search for unknown

cases must be made among apparently healthy people. And one of the major aids in finding unknown cases of tuberculosis is the chest X-ray.

The chest X-ray, a "photograph" of a person's lungs, can show up suspicious shadows in the lungs of a sick person before the victim feels ill or shows symptoms of the disease. The X-ray is widely used today in searching out unknown cases of tuberculosis among large groups of apparently healthy people. The development of X-ray machines using miniature film has made possible the screening test even of whole communities in comparatively short periods of time.

When suspicious shadows show up on the small film, a larger film is taken for more detailed study. If the larger film then indicates signs of disease, further tests are made before final diagnosis. If a diagnosis of tuberculosis is made, steps can be taken to help that person get prompt treatment. The patient thus has a better chance of regaining his health than if the disease had gone on undiscovered until it reached an advanced stage. At the same time, the chances of his spreading TB are reduced when the disease is discovered early.

If every adult had a chest X-ray at least once a year, there would be no "unknown cases" of tuberculosis, and most cases of the disease would be discovered in an early stage. When that happens, we shall be a long way toward eradicating tuberculosis in this country.

Eugene Todd, Bertie County 4-H Club member who produced 126 bushels of corn on one acre last year, is one of the leading contenders for county honors again this year, says County Agent B. E. Grant.

## Farmers To Vote On "Nickels" Plan

### Referendum Is Scheduled To Be Held November 3

Farmers have been hearing a lot lately about "Nickels For Know How." What's it all about?

"Nickels for Know How" is a plan to expand agricultural research and teaching in North Carolina through a farmer contribution of five cents per ton on all feed and fertilizer sold in the State.

The idea was originated by farm leaders of the State. The 1951 General Assembly passed an enabling act that gives farm people the opportunity to contribute directly for expanded research and education if they approve it in a referendum to be held November 3. The referendum is to be conducted by the North Carolina Grange and Farm Bureau and the Agricultural Foundation, Inc., at State College.

The Agricultural Foundation, incidentally, is a corporation made up of farmers and farm leaders for the purpose of receiving gifts or contributions to support an expanding program of research and education.

Farm leaders say North Carolina has such a varied climate and agriculture that more money is needed to solve the insect, disease, and weed problems of farmers. Even the generous appropriations made by the last two legislatures fall far short of the needs. Since farm people cannot expect more than their share of

public funds, the additional money must be raised in some other way.

In the referendum, all persons who use feed or fertilizer, and their wives or husbands, will be eligible to vote. FFA, NFA, and 4-H Club members with crop or livestock projects of their own are also eligible.

The voting on November 3 will be conducted from 6:30 A. M., to 6:30 P. M., at the polling place used in the election of PMA committeemen. No special registration is required.

If approved by a two-thirds majority of those voting, the plan will be effective for three years.

## George E. Halstead New Board Health Chairman

The District Board of Health met at the Elizabeth City Health Center on October 9. George E. Halstead was elected chairman of the board to fill the vacancy caused by the recent resignation of S. G. Etheridge, who resigned due to ill health.

The Board accepted with deep regret the resignation of Mr. Etheridge, who has been so conscientious and valuable a worker in the cause of public health in the district for some years past. V. N. Darden of Hertford was elected vice chairman of the Board. John T. Stevenson of Elizabeth City was elected to serve the unexpired term of Mr. Etheridge as a pharmacist member.

### "GHOST" IN CELLAR

Staunton, Va.—Hearing eerie noises in the Thornrose Cemetery, people naturally thought of ghosts. The "ghost" turned out to be a small monkey, about the size of a cat, which fled to the basement of Booker Myer's home near the cemetery. Now all's quiet in the cemetery.

# DOLLAR DAY BARGAINS

## Thursday, Friday, Saturday, Oct. 18th, 19th, 20

### Ladies' Suits Specially Reduced For FAIR DOLLAR DAYS

\$34.50 SUITS	<b>\$29.50</b>
For Dollar Days.....
