Rates increased For Auto Liability

Hike Will Add \$2,142,000 **Annually to Cost of** Insurance

crease since November 22, 1948, be-

Announcing that he had approved a rate hike that will add \$2,142,000 annually to the cost of liability coverage, Insurance Commissioner Waldo C. Cheek repeated an old warning.

"There can be no foreseeable possibility that automobile liability insurance rates can be reduced until the accident record of the motoring public improves an dthe number of accidents is reduced," Cheek said. He noted there were 28,251 automobile accidents

In his announcement, he said he was approving the rate increases requested by the North Carolina Automobile of recorder courts and mayors' courts. Saily Lemon's YWA of Macedonia In the morning a joint session of land that had been "factually demonstrated that all groups was held, which included the meeting on Tuesday, December 11.

that automobile insurance rates are of Government. bouncing back up after sliding down-Now, he pointed out the new increase has nearly wiped out that reduction in its entirety.

For private passenger automobiles, the increases approved by the commissioner are 7.7 per cent in bodily injury rates and 25.2 per cent in properate at a hippopotamus?"

Rising costs of repairing damaged cars helped run up the insurance companies' losses, but Commissioner Cheek indicated he was primarily concerned about the increase in traffic

Figures which have just been filed with his office by the National Association of Independent Insurers indicate, he said, that high rates charged for policies covering vehicles driven by anyone under 25 years of age are

104.4 per cent for property damage and enjoyed by all, after which Mrs. Liability rates for private cars with youthful drivers are the highest in the State. The differential is maintained in the new rates.

Mayor And Police

there were 28,251 automobile accidents in North Carolina in 1950, compared with 21,202 in 1949.
