

Extension Services Aid Wool Producers

Wool Accepted at All FCX Stores May 27 And 28

Again this year, with the F. C. X. Extension Service and the Division of Markets cooperating, a program has been worked out to assist wool producers in finding a market for their wool, it is reported by C. W. Overman, County Agent. It is the opinion of the cooperating agencies that the program this year will be a marked improvement over the ones offered in the past.

On May 27 and 28 growers may take their wool to any F. C. X. store where it will be weighed and a receipt given for it. It will be shipped to Washington or Winston Salem to be graded. Grading will be done at Washington on June 3 and 4 and at Winston Salem June 10 and 11.

As soon as the wool has been graded and sold, full settlement will be made as it is humanly possible to do so. Members of the Division of Markets and the Extension Service will be present to cooperate in the process of grading.

The following suggestions if followed by sheep men should insure more money for wool:

1. Have shearing equipment in good order well ahead of shearing time. For repairs send equipment to factory. Also send old combs and cutters to factory for sharpening. For new equipment see your local dealer.
2. Never shear when wool is wet. If wool gets damp, spread it out to dry before bagging it; damp wool will rot.
3. Shear on clean floor or a canvas to avoid getting straw, manure or trash of any kind in the wool.
4. Avoid second cuts. Cut close and keep fleece unbroken.
5. Tie each fleece with paper twine flesh side out. There may be a discount of 2 cents per pound on all wool not tied with paper twine and when sisal or binder twine is used 10 cents per pound may be deducted. Bailing wire should never be used.
6. Tag all sheep before shearing. Pack tags and sweepings in a separate bag, otherwise much of this wool is lost in the process of grading.

7. Pack Black, Burry, Dead Wool or Rejects of any kind in separate bags properly marked.
8. Keep lambs wool separate from all other wool.
9. Pack wool in regular wool bags.
10. Store wool in a dry place, never in wet basement, on ground, or cement floor.

This Week's Poem

By WILBORNE HARRELL

ANOTHER SPRING

I remember another spring,
Each little flower recall;
Each little blade and leaf and wing
Are marshalled like soldiers all.

Before my memory marches,
Parading in perfect time,
Sweet smells of woodland marshes,
Violet, cowslip and thyme.

I remember another spring,
Of blossoms, blue skies and rain;
I remember a heart that sings
And love and its poignant pain.

I remember a perfect spring;
Love and perfection undone . . .
Another spring, another dawn
Begins with tomorrow's sun.

Limit To Parcels Addressed Overseas

It has come to attention that some post offices are accepting air parcel post packages addressed for delivery to military addressees overseas which exceed the size and weight limits prescribed by Postmaster General's Order No. 50231 dated March 5, 1952, published in the Postal Bulletin of March 11, 1952.

Postmasters and postal employees are, therefore, reminded that air par-

cel post, addressed to APO's in care of the postmasters at New York, San Francisco, Seattle and New Orleans, and to Navy and Marine Corps units, including ships, addressed in care of the fleet post offices at New York and San Francisco, is limited to 2 pounds in weight and 30 inches in length and girth combined.

Vets' Question Box

Q—Is a down payment required for a GI business loan?
A—No. Neither the law nor recent credit control regulations require a down payment for a GI business loan. But your lender has the right to ask for one if he chooses.
Q—I'm studying engineering under the GI Bill. I want to drop my math course for the time being. Am I allowed to do so under VA's post-cut-

off-date regulations?
A—Yes. VA's post-cut-off-date regulations apply to changes of over-all programs of study, and not to changes of individual courses within a program of study. Therefore, dropping or adding a course, within a program of study, is permitted.
