

Dr. Martin Wisely On Welfare Board

Mrs. E. N. Elliott and
John W. Graham Oth-
er Two Members

Dr. Martin Wisely has been named a member of the Chowan County Welfare Board as the appointee of the County Commissioners for a three-year term beginning April 1, 1953. The other two members of the three-member board are: Mrs. E. N. Elliott and John W. Graham.

In accordance with North Carolina law, one member of the one hundred county welfare boards over the State is named this year by the county commissioners. Another year one member is appointed by the State Board of Public Welfare. The third member is chosen the next year by the other two appointees. All members serve for three-year terms, but may not serve more than two consecutive terms.

The county welfare board, made up of representative, public spirited, socially minded citizens, is the legal appointing authority of the county in naming a superintendent of public welfare from names of qualified persons certified by the Merit System. The board also determines the number and salaries of public welfare employees in joint session with the board of county commissioners. Annual budgets are made up at this joint session and submitted by the county welfare boards to the State Board of Public Welfare in accordance with statutory requirements. Copies of budgets are also maintained by the county auditor.

Applicants for public assistance are considered and approved by the county welfare board as a basis for receiving aid to the aged and aid to dependent children. The board, which meets at least monthly, approves all changes or terminations in aid given recipients of public assistance.

Through the department staff the board also renders a variety of non-financial services to people in all walks of life. Arranging for adoption placements of children and aid in planning for suitable boarding home care for the aged, as well as children, are examples of these non-financial services.

Members of the county welfare board advise the superintendent of public welfare on all aspects of the program, including the handling of any serious problem cases. It also acts in an advisory capacity to county and municipal authorities in developing policies and plans for dealing with problems of dependency, better social conditions, and cooperation for the rehabilitation of people in need. The board members, with their public viewpoint and responsibility, are charged with interpretation of the welfare activities to the county.

The State Board of Public Welfare consults with county welfare boards regarding all major policy changes and program developments before they are undertaken. It looks to the county welfare boards for guidance in preventive and rehabilitative services to help people help themselves.

Dr. Wisely has been a member of the welfare board for the past 3 years.
