Citizens Object To Extend Danger Zone

(Continued From Page One) practices used in bombing and being assured that no live bombs or explosives would be used, he believed that little harm would be done to commercial fishing.

C. R. Holmes, Hertford attorney, voiced the protest of farmers and fishermen of Perquimans County in regard to missiles being dropped on their fields and explosives causing windows to rattle and houses to shake. He also requested that practice bombing be restricted during the commercial fishing season as well as during the wildfowl hunting season.

Capt. Lee explained that the vibrations causing windows to rattle were probably caused by high speed jet planes breaking through the sound barrier and that this was a necessary part of the Navy's training program.

Others speaking in behalf of the citizens were R. M. Riddick, Hertford banker, Joe Conger of Edenton, W. B. Shepherd of Chowan County, Lloyd and Josiah Proctor, Perquimans Coun-

ty farmers and fishermen.

Mayor V. N. Darden stated that the town of Hertford had taken no action for or against the proposed amendment. Charles Henc, president of district one of the wildlife clubs expressed the opinion that it would not hurt sport fishing in the Perquimans River. He introduced Eugene Schwal, assistant director of the Wildlife Commission, who requested that bombing cease at least 35 to 60 days before hunting season opened so that the concentration of wild geese and ducks might not be disturbed.

Congressman Bonner spoke at the close of the meeting thanking the Army and Navy officials for the explanation of the proposed regulations and thanked the many citizens present for their interest and cooperation in

the matter. He expressed the opinion that a satisfactory solution would be worked out and that the interest of all would be protected.

Col. Brown then explained the procedure that would be followed in presenting the evidence brought out at the hearing to the Corps of Engineers and how a final decision would be reached.
