

More New Paving Is Completed In County

Chowan Bridge Scheduled to Be Completed By September

The State Highway Commission completed 3.4 miles of paving in Chowan County during the month of June, Commissioner J. Emmett Winslow reports.

State Highway maintenance forces graded and paved from Cisco northwest to N. C. 32 for 1.9 miles. The project was financed by the secondary road bond program. The road is 16 feet wide.

Contract forces have widened the substructure, built concrete handrails and a new 26-foot wide concrete deck on the Edenhous Bridge over the Chowan River on U. S. 17 near Edenton. The bridge is 1.5 miles long. The superstructure on the bridge should be complete in September.

The old First Highway Division composed of Camden, Chowan, Currituck, Dare, Gates, Pasquotank, Perquimans, Bertie, Hertford, Martin, Northampton, Edgecombe, Halifax, and Warren counties brought a total of 60.3 miles of road work to completion during June.

Under the new 14-division State Highway Commission, Chowan remains in the First along with Bertie, Camden, Currituck, Dare, Gates, Hertford, Hyde, Martin, Northampton, Pasquotank, Perquimans, Tyrrell, and Washington counties. Headquarters for the First remain in Ahoskie. W. N. Spruill is the division engineer.

Earl Whites Hosts To Agriculture Club

Enterprise Agricultural Club held its July meeting Wednesday afternoon of last week at the home of Earl White, where they visited his tobacco variety test demonstration. Mr. White then served the group with cold drinks, hot doughnuts and potato chips.

The group then visited E. L. Ward's pastures and beef cattle herd, later visiting Mr. Ward's farm and observed his field of irrigated tobacco.

This community group is showing considerable interest in working together. They made plans to contact the community Home Demonstration Club and together have a community family picnic in August. The September meeting is to be held in late afternoon again at which time they plan to visit several corn and pasture demonstrations and other work of interest. Lloyd Bunch is chairman of the group.

Children Entering School First Time Must Be Immunized

State Law Pointed Out By Superintendent W. J. Taylor

W. J. Taylor, superintendent of Chowan County Schools, calls attention to the fact that parents whose children enter school for the first time are required by State law to have immunization for diphtheria, smallpox and whooping cough, and it is recommended that they have immunization for typhoid and tetanus.

Children who enter for the first time 1953-54, must present a certificate of immunization, either from their family physician or the County Health Department, for diphtheria, smallpox and whooping cough. The County Health Department is open every Friday for immunization.

The State Board of Education has ruled that children may enroll in the 1953-54 term if they are six years of age on or before October 15. If a child is born on October 16, he becomes six on October 15, according to a ruling of the Attorney General.

No one can build his security upon the nobleness of another.
