ment Of Peanuts

HOW CAN FARMERS MAKE THEIR VOICES STRONG?

In view of the highly organized economy in which farmers live today, we have only one alternative; that is to organize and pool our strength in such a manner that our position at all times can well be presented to any group dealing with farmers' problems. The success that is made toward solving the agricultural problems will depend upon how well we, as farmers in this country, join hands and work together.

VOTE IN THE PEANUT REFERENDUM!**

Big Day For Peanut Farmers

C. S. Alexander, of Scotland Neck, president of the North Carolina Peanut Growers Association, reminds peanut producers that August 29 is their big referendum day. On Saturday, all farmers who grow one or more acres of peanuts will have an opportunity to vote on whether or not they should levy upon themselves an annual assessment of one-cent per hundred pounds of peanuts marketed for a three year period. The proceeds from the assessment would be turned over to the association by the Commissioner of Agriculture to be used to promote the interests of Tar Heel peanut growers in all phases of production, marketing, processing, consumption and research. This new organization would function in a similar manner to the successful self-help Tobacco Associates program, which leaf growers authorized in 1947 under the same law.

**Vote Saturday, August 29th Whether Or Not To
Assess Peanuts 1c Per 100 Pounds.
YOUR VOTE IS IMPORTANT—CAST IT!**
