

Tax Benefits For Storage Facilities

Income Tax Deductions Provided by Public Law 287

Special income tax deductions have been provided by Congress for grain producers and warehousemen who complete or acquire additional grain storage facilities between January 1, 1953, and December 31, 1956, Assistant County Agent Robert Marsh reminds farmers of Chowan County.

Public Law 287, recently signed by President Eisenhower, provides, in place of the ordinary depreciation allowances, for income tax deductions based on amortization over a 5-year period of the cost of building new grain storage facilities or of converting or enlarging existing space for grain storage. The deductions apply to corncribs, grain bins, grain elevators, or any similar structure suitable primarily for grain storage and intended for that use.

To take advantage of the benefits provided under Public Law 287, Mr. Marsh says that a grain producer who qualifies under the act for such deductions needs only to state his intention in his income tax return for the year in which the facility was acquired or completed. Permission before adding the facility is not needed to obtain the tax deduction.

The law states that deductions should be computed on a monthly basis, dividing the adjusted cost of the improvement by the number of months left in the 60-month amortization period to obtain the deduction allowable for one month. No regulations or instructions on the grain storage provision are available at this time.

MORE AND BETTER TV

Before the year is out, expanded video activity in North Carolina should result in 8 new television stations located in the cities of Raleigh, Durham, Winston-Salem, Greenville, Charlotte, Mt. Airy, Henderson and Asheville—bringing a new world of entertainment to both city and farm folk from the mountains to the sea. It is progress like this that makes North Carolina a better place in which to work, play and live for all of us!

Another contributing factor to more pleasant living for North Carolinians is the brewing industry's self-regulation program where brewers, wholesalers and retailers—in counties where malt beverage sales are permitted under State control—cooperate to maintain wholesome conditions for the legal sale of beer and ale.
