Good Teeth-For You, Your Child **Your Community**

By ERNEST A. BRANCH, D.D.S

The Council on Dental Health of the North Carolina Dental Society is sponsoring this series of articles on Dental Health. The writer, Dr. Ernest A. Branch, is the Director of the Division of Oral Higiene of the North Caro-State Board of Health. In this, the first of the series Dr. Branch poses a very personal and pertinent question.

HOW MANY TEETH HAVE YOU? One of the anecdotes in dental lore tells of a pseudo-scientist who, boasting about his profound knowledge of astronomy to the learned Gamaliel, said, "The number of stars is well known to me." To this the wise Gamyou have." In a state of utter ig-

From personal experience we know that some wise and well educated peo- program in the schools, the lament so ficer Clyde Gurkin, director of Operaple of our day would have to profess frequently heard is, "Why didn't ignorance on this point. To many someone teach me to take care of my Bernard A. Katz, assistant to Major more the question would cause great teeth when I was young?" That is embarrassment and regret. If you certainly the time to start on this can answer thirty-two you have a per- three-point program of prevention. fect score, not only on your I. Q., but also on your tooth quotient. And, if swers the question, "why do you need you have this perfect score, you are good teeth?"

The flext article bit. Branch and Junior Chamber of Commerce.

The Governor asked the de among the very fortunate minority.

A survey of 225,000 school children in our State showed that one out of every five, or twenty per cent, of these children, under sixteen years of age, had already lost or needed to lose! one or more of their permanent teeth Among the adult population the percentage is much higher. In the early days of the draft one requirement was that the applicant should have at least four opposing posterior teeth. This standard was soon lowered as so few young men could qualify. Plates or bridges became almost standard equipment. It is feared that this generation will have lost half of their teeth before the age of 40.

The villain in this situation is a dicontrol. Indeed, every individual must be concerned, for the price of freedom from this enemy is eternal vigilance Dental caries cannot be completely conquered by external measures as can yellow fever, malaria, typhoid fever, and many other diseases. It is true that dental scientists have discovered ways of helping reduce the incidence of tooth decay. These measures, the fluoridation of municipal water supplies and the topical application of sodium fluoride to children's teeth offer great promise and will be discussed in subsequent articles. They will never replace certain effective steps which can and should be taken by every individual. The concensus of recognized author

DOG REMEDIES

MANGE MEDICINE (improved) Promotes healing and hair growth to severe SKIN BALM (for itching fun rough skin. A clean liquid of edor).

. SPOT BALM (for crusty es elsewhere).

• WORM CAPSULES (for heak, and whip worms).

• TAPE WORM TABLETS (Unlies expelling type. These Tablets desir head in one easy treatment).

ities in the field of dentistry and dental research is that there are three essential factors in the control of tooth

decay. These three measures are: 1. Regular visits to the dentist for the early detection and correction of dental defects.

2. A well balanced diet and temperance in the consumption of sweets. the teeth as soon as possible after

Perhaps many of you are thinking that in your own case the damage has already been done. This may be true, but you may still be able to make the best of a bad situation by following these simple procedures. And you can aliel replied, "Tell me how many teeth certainly help your children to profit by your experience and your knownorance and confusion the boaster put ledge. After we have talked to a civic his hand to his mouth and began to club, a parent-teacher association, or ers about our dental health education

Earl O. Shreve New **Savings Bonds Director**

Chief Justice Warren of the U. S. Supreme Court Wednesday of last week administered the oath of office to Earl O. Shreve of Fort Lauderdale, Florida, as National Director of the United States Savings Bonds Division of the Treasury Department.

Earl O. Shreve was sworn in as the new National Director of the U.S. Savings Bonds Division of the Treasury Department at a colorful ceremony in room 4121, Main Trasury Building. The oath of office was adsease called dental caries, the most ministered in the presence of Secreprevalent of all human ills. All of tary of the Treasury George M. us should be vitally interested in its Humphrey and other Treasury and Savings Bond officials.

You're in the driver's seat

TT's your money, of course—but we'd like I to see you make the most of it.

That's why we publish the price of the big Buick Special here—to make Point #1: you can buy this great performer for just a few dollars more than the so-called "lowprice three."

But Point #2—the smart point—is this:

When you put up those few extra dollars for the Buick pictured here, you're in the driver's seat of a lot more automobile.

You boss extra power - more satisfying power-walloping Buick Fireball 8 power -highest ever found in a Buick SPECIAL.

You get extra room-a lot more comfortable room - real, man-sized, 6-passengerroom - as much room as you get in cars costing hundreds of dollars more.

You enjoy extra satisfaction - more solid satisfaction-in the ride of this big, broad,

road-steady traveler that's cushioned by coil springs on all four wheels, and engineered with all the other costly features of the Million Dollar Ride.

And, speaking of extras - here you get, at no extra cost, a long list of standard equipment that most other cars at or near the price of this Buick charge you for, as "extras" on the bill of sale.

So, as we said—it's your money—and it's your move.

If you're aiming for the driver's seat of a hard-to-beat buy-for a lot less than you think—come in and see us soon.
