 In addition to the honors won at the County Achievement Day, the following club members were recognized as being either District or State winners:
 District Winners: Clothing achievement, Mary Sue Elliott; dairy foods team, Mary Sue Elliott and Evangelyn Copeland; home grounds beautification, Jacquelyn Bunch; leadership, Jacquelyn Bunch; Carlton Perry, cotton winner in 1952; Vandy Parks, corn winner in 1952; Jackie Morris, entomology winner in 1952 and 1953; James Monds, tractor maintenance winner in 1951 and 1952.
 State Winners: James Monds, tractor maintenance winner in 1953. (The reason the 1952 field crop winners were recognized is because their record books were not judged in 1952 in time for their names to be announced at the 1952 Achievement Day program).
 Billy Goodwin and Marjorie Harrell were county winners in the farm and home electric contest and they represented Chowan County at the Electric Congress held November 2-3 in Raleigh.
 Shirley Harrell was recognized as second place territorial winner in the farm and home electric contest and attended the Electric Congress at which time she was awarded a gold watch.
 Leon Privott and Jackie Morris were recognized for their part in putting on a team demonstration in the National Junior Vegetable Growers Association contest last June. Sherwood Harrell was recognized for having put on an individual demonstration in the same contest.
 A cup was awarded the Chowan 10th, 11th and 12th Grade Club for one year. The cup will be engraved with the club's name and was given in recognition of this club's many activities in the County Council, community activities, etc. The Rocky Hook Club won the plaque for being the best Grammar School club in Chowan County.
 Local 4-H Club leaders who have done so much to make the club program a success were recognized by Mr. Marsh. Mr. and Mrs. J. C. Skinner, Mrs. J. W. Morris and Wallace Goodwin, Jr., were presented to the group as local leaders. A few of the other local leaders were not present. Parents of the 4-H Club members were also recognized for their part in their children's activities. Appreciation is expressed to W. J. Nichols, principal of Chowan High School, and the Chowan faculty for their cooperation with the 4-H Club program during the past year.
 County Agent C. W. Overman installed the incoming Council officers for 1953-54.
 Punch, mints and nuts were served after the program to approximately 125 club members, parents and friends.

Farm Machinery Field Day Next Tuesday

(Continued From Page One)
 ment dealer will take over for his demonstration.
 At 2:10, the third farm equipment dealer will conduct his demonstration.
 At 3:30 a junior tractor drivers' contest will be held. This will be for boys in school, and boys out of school who are not over 17 years of age. There will be two events, one for the white boys and one for colored boys. Prizes will be awarded the winners.
 At 4:30 another valuable attendance prize will be awarded to the lucky number drawn.
 This will be a day packed full of action. Every event will have to run on schedule. Farmers will have an opportunity to observe the latest tractors and equipment, suited to this area, handled by local dealers. The information given by the demonstration teams should prove very valuable. The contests should provide considerable fun. Due to the limited time, the tractor drivers' contests will be limited to three contestants in each event. Others will be invited to compete if time permits.

ROTARY MEETS TODAY

Edenton's Rotary Club will meet today (Thursday) at 1 o'clock in the Parish House. President John Kramer urges a full attendance. The program will be in charge of M. M. Perry.

JOHN DEERE SPREADERS

LAST LONGER and WORK BETTER

Long life and good work are the words most often used when farmers talk about John Deere Spreaders. The reason: John Deere Spreaders have a combination steel-and-wood box that will outlast an all-steel box by far. High-grade pine that resists manure and phosphate acids and cannot rust is used in the sides and bottom.

The heavy steel frame and trussed steel box-supports . . . heavy armored rolled-steel side-flares . . . and rugged steel arch-pipe over the beaters absorb the jars and jolts of mechanical loading. The strong, five-speed conveyor drive . . . hardened steel roller chain drives . . . and roller bearings on all three beaters take the wear and tear of faster tractor speeds.

Two easy-running, roller-bearing, shredding beaters do an outstanding job of pulverizing the manure, for distribution in a wide, even spread by the improved wide-spread beater.

Come in and see the 2-wheel Model "L" Tractor-Drawn Spreader and the 4-wheel Model "M" Horse- or Tractor-Drawn Spreader. They are both tops in good work and long life.
