SCHOOL LIBRARY IN ACTION

Above is pictured two views of the Edenton Junior-Senior High School Library. In the top picture is the south end of the library, where two students are using the recently completed card catalog and others are examining new books. The work room, equipped with a sink, typewriter and storage facilities, is behind the counter. The bottom picture shows the north end of the library and students doing reference work. The pictures at the end of the room are the water colors which Mrs. Enola Smith gave the library. Also visible is the charging desk where Faye Haste, library assistant, is on duty.

was in the family cemetery. Pallbearers were Carter B. White, Alma Byrum, Kelly Jordan, Alva Gresham, Dewey P. McCloud and Erwin Bunch.

Gene, son of Mr. and Mrs. P. E. Saunders, was born in Edenton on October 13, 1935. He is a member of the Student Council, circulatory manager of the Annual, manager of the Student Store, and is on the Class Executive Committee. Gene's interests lie in basketball, football, dances and a certain high school girl named Evelyn. Gene is one of the five boys to take the N. R. O. T. C. exam and if he passes he is going in training in the fall. Gene is employed after school hours at Leggett and Davis Drug Store.

Senior Hi-Light

Last Saturday five of the Senior boys went to Norfolk where they took the N. R. O. T. C. exam. The boys were Clifford Overman, Gene Saunders, Larry Lowe, Stacey Lamb and Bobby Whiteman. They haven't received any results yet but we feel sure that they did their very best.

The two Seniors to be introduced to you this week are Chrystal Haste and Gene Saunders.

Daughter of Mr. and Mrs. T. E. Haste, Chrystal was born in Chowan County on March 23, 1936. Throughout high school Chrystal has participated in numerous activities and this year she is a member of the Tri-Hi-Y and Monogram Clubs, plays basketball and is a cheerleader. Although her main interest lies in Hertford, she

NORTH CAROLINA UNLIMITED

AND WE HAVE APPLES, TOO!

Among the many North Carolina farm items enjoying steady production increases is the rarely mentioned apple crop. A record 2 million bushels were grown and sold in 1952! In view of the important part this cash crop plays in Tar Heel farm income, it goes far in making our state a better place in which to work, play and live.

Another contributing factor to more pleasant living for North Carolinians is the brewing industry's self-regulation program where brewers, wholesalers and retailers—in counties where malt beverage sales are permitted under State control—cooperate to maintain wholesome conditions for the legal sale of beer and ale.

HEALTH FOR ALL

Christmas Seal Search
One hundred and fifty thousand missing persons must be found to keep you safe from tuberculosis.

There are an estimated 400,000 active cases of tuberculosis in the United States today of which only 250,000 are known to health authorities. Many of the 150,000 unknown people with TB do not even suspect that they have an insidious disease which is steadily and quietly undermining their health. TB has no obvious symptoms in its early stages, yet it is infectious in any active stage.

Tuberculosis can be cured. If we could break the chain of infection the disease could be virtually wiped out. Yet we know that about 115,000 people who are healthy today will develop TB within the next months. Unless the missing people spreading TB are found and placed under treatment, we cannot prevent new cases.

Where are they and who are they? We do not know, but we must find out. Doctors, health departments, the tuberculosis associations you support when you buy Christmas Seals—these and other official and voluntary agencies are joining in the search.

The tools and "know-how" to do this

job are available. A chest X-ray can "see" tuberculosis before there are any outward symptoms. With miniature X-ray film, the entire population of a large city can be checked quickly and the possible cases of TB screened out.

The tuberculosis associations in cooperation with other agencies promote case-finding programs of many
