

Methodists Plan Training School In Hertford Church

Two Days Will Be Devoted to Various Sessions

A Training School for the Methodist Churches of this area is scheduled to be held in the First Methodist Church, Hertford, on April 4 to 6. The school will begin on Sunday night at 7:30 in the Education Building of the church with a 15 minute devotional service. On each evening there are to be two 50 minute periods for class room work—lectures, discussions and visual aid studies. Closing time will be 9:30 each evening.

Three separate courses have been arranged with an able group of three instructors. The Rev. R. L. Jerome, pastor of the First Methodist Church in Elizabeth City will be in charge of a course dealing with work with adults on the subject, "Christian Stewardship." Mrs. R. T. Commander, director of children's work in the Elizabeth City District, also of Elizabeth City, will teach the class for workers with children, entitled "Children and the Bible." For all who are interested in work with youth Mrs. H. R. Odom of Gibson, N. C., will be in charge of a course on "Teens—Their Days and Ways." Mrs. Odom is a well known authority on the subject of youth throughout the North Carolina Conference.

The opportunities of the school are open to everyone who is interested in Christian teachings for children, youth and adults. While it will have special values for officers, teachers, workers and parents charged with the responsibilities of the Church School, it will also provide information for all who attend.

The Rev. H. M. Jamieson is serving as treasurer of the School and the Rev. A. L. Chaplin has been accredited by the General Board of Education as Dean of the School.

Belonging to the Area are the following churches: Edenton, Hertford, Anderson, Center Hill, Bethany, Evans, Cedar Grove, Epworth, New Hope, Oak Grove and Woodland. It is hoped each church and Church School in the Area will have a large delegation in attendance.

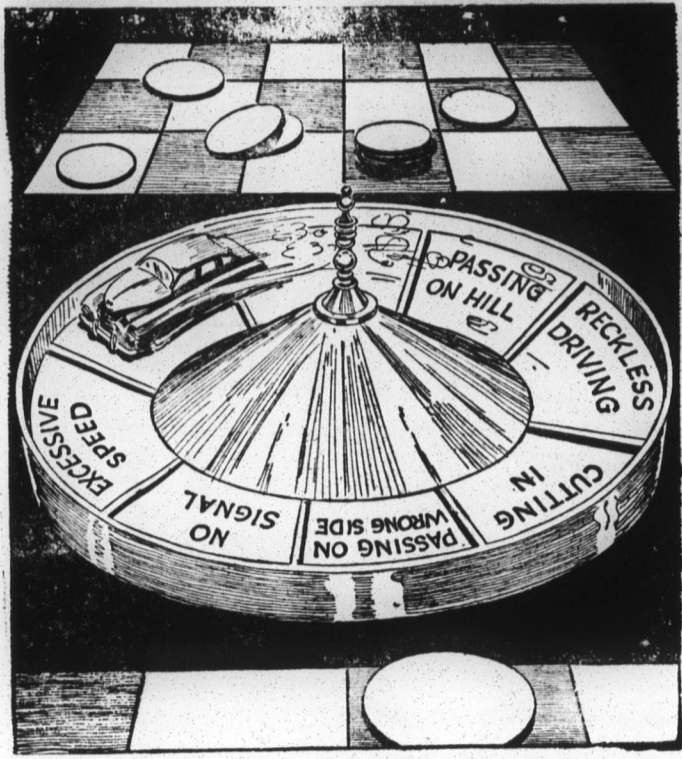

Tobacco Tours Set Record

Free guided tours of the R. J. Reynolds Tobacco Company (Camels) at Winston-Salem, North Carolina, attracted 35,094 in 1953. This is a new record, exceeding the 1952 figure by over 6,000. Over 70 per cent of the 1953 visitors were from outside North Carolina. Average attendance was 140 visitors per working day at the big cigarette factories. Daytime tours are offered Mondays through Fridays from 8 A. M. until 3 P. M., while evening tours are offered from 6 P. M., until 9 P. M., on the same days.

North Carolina Shad

Topping the menu at century-old Sweet's Restaurant in New York is North Carolina shad when available in its prime. It's the real article, accurately labelled, and very popular with diners at one of the nation's really distinctive eating places. Sweet's is at 2 Fulton Street

WHY PLAY "ROAD ROULETTE"?

Perhaps a handful of Americans have been killed gambling at the dangerous Russian Roulette—that game in which you put a single cartridge in a revolver, spin the cylinder, aim at the temple and pull the trigger, betting your life that the bullet will not be in position to fire.

But statistics reveal that more than 1,000 North Carolinians died last year—and more than 15,000 were injured—taking bigger gambles with their driving; exceeding safe speed limits, driving or passing on the wrong side, cutting in, passing on curves and hills, improper signalling or none at all, driving off the roadway or just plain driving recklessly.

"Road Roulette" with human lives as the stakes—you might call such insane carelessness.

When you assume, for example, that speed limits are set by legislators interested merely in forbidding something—you're playing "road roulette" with your life as the bet. Safety limits are set by engineers who know how much speed a given road or curve can safely take.

Other players of "road roulette" the driver who drives too fast for his headlights; the sport who squeezes through driving traffic signals; the driver who parks and get out of his car on the traffic side; the exhibitionist who covers most of his windshield with stickers showing where he's been—so that he can't see where he's going; and the driver who "just takes it for granted" that his car is in safe operating condition.

They're all playing "road roulette." Make sure you're not in the game—and live longer.

New Frigidaire Line At Ralph E. Parrish

A brilliant new line of household refrigerators and electric ranges with exteriors finished in full color as well as conventional white, is announced by Ralph E. Parrish, Frigidaire dealer in this locality.

The new colored products are being mass-produced in two distinct pastel shades—rich Stratford yellow and cool Sherwood green. The colored refrigerators have matching interiors and the white models have new full-color styling inside.

New 1954 Frigidaire appliances are being shown for the first time in this locality in the showrooms of Mr. Parrish.

Mr. Parrish, who previewed the glamorous new household products re-

cently, said that Frigidaire factory officials reported three significant trends affecting the design of refrigerators today.
