

Mrs. David Warren Auxiliary Speaker

Tells Members About Episcopal Mission In Alaska

Mrs. David Warren gave an interesting talk on the Episcopal Mission for Indians at Fort Yukon, Alaska, at the Thursday, April 8, meeting of the Woman's Auxiliary of St. Paul's Episcopal Church. Mrs. Warren, who served for one year as secretary to the director of the mission, was introduced by Mrs. George Mack.

It was learned from her address that the village of Fort Yukon in the interior of Alaska, while buried in darkness and frozen many months of the year, is not so very different from our own church. Whereas the women attend their auxiliary meetings by moonlight, the work of the auxiliary is similar to St. Paul's Auxiliary. In the church, a log cabin structure, services are conducted in the Indian dialect in the morning and English in the evening.

Highlights of the year for the Indians are the traditional dog races on Easter Monday, the breaking of the ice and the coming of the steamboat bringing luxuries which the planes could not bring during the cold months. Then comes vacation Bible school followed by snow in September and at Christmas the sun appears on the horizon for about one hour at noon.

The missionaries have brought the best thing to come to Alaska by the white man and that is the Christian religion, which is now replacing their religion of fear.

Mrs. R. P. Badham, president, announced that Mrs. Richard Dixon will serve as bazaar chairman for this year, assisted by a co-chairman, Mrs. Roland Vaughan. She also announced that Mrs. Ralph Parrish will serve as treasurer, replacing Mrs. Richard Dixon.

Mrs. William Swets will speak on "Consecrated Hands" at the May meeting, it was announced.

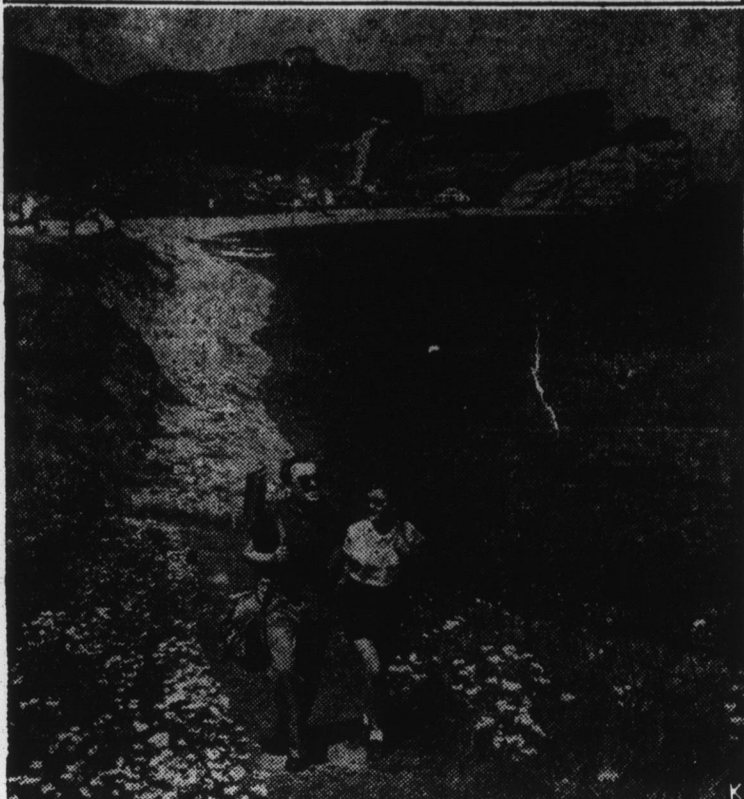

The annual meeting of the Woman's Auxiliary will meet in Greenville on April 28 and 29.

Competition Is Keen For 4-H Judging Team

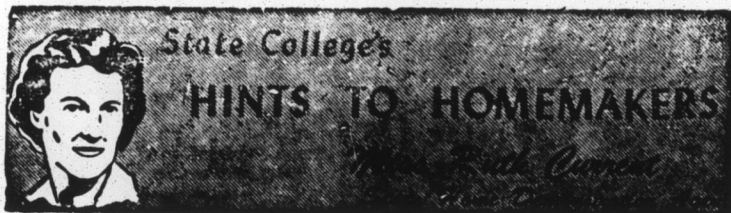

Several Chowan 4-H Club boys are working hard to make the 4-H livestock judging team this year. Although there is only one member from last year's team, the newcomers are doing their best to make competition for the old member difficult. Each of seven boys is working hard to be one of the four members of the team. Boys who are trying for the team this year are: Johnny Perry, Emmett Perry, Joe Privott, Joseph Wiggins, Jr., Steve Burch, Bernie Baker and Paul Blanchard.

The first official contest which the team entered this year was held at Kinston on Wednesday of this week.

Springtime in Canada

Springtime in Canada is a season of sudden excitement, and in Eastern Canada especially it comes with a rush. Here a pair of hikers stroll along the Gaspé Peninsula near its tip, in one of the most charming sections of Old Quebec. Seasonal changes are perhaps more striking in Canada than anywhere else, and early-season travelers have a chance to enjoy unusual variety in scenery and climate. Free travel information and literature on Canada is available on request from the Canadian Government Travel Bureau, Ottawa, Canada.

Season To Store Woolens—Clothes moths and carpet beetles are our most destructive household pests. They are responsible for some 350 million dollars in fabric damage each year. Now is the season to make sure none of your woolen clothes is unprotected against these pests.

The newest chemical preparation is EQ-53 which can be put in the water when laundering washable woolens like blankets, sweaters, socks and scarfs, etc.

Complete directions for success in the battle against these insects are given in the publication "Clothes Moths and Carpet Beetles" (HG-24). Single copies are free from the Office of Information, U. S. Department of Agriculture, Washington 25, D. C.

Ready And Willing Helpers?—Usually when children don't help willingly at home it is because of unhappy experiences they have had. When they frequently complain about the jobs they have to do, or try to put them off on someone else, it is time for us to find why they aren't willing helpers. We might start by asking ourselves the following questions: Could it be because: (1) we seldom praise them for things they do well?

(2) of the kind of work we have asked them to do? (3) we haven't let them take turns at different jobs? (4) we have made them feel like they are somewhat of a nuisance and have been too critical of what they have done? (5) they needed more help and encouragement from us? have we been patient with them? have we taken time to help them kindly and sympathetically? (6) have we failed to let the children help plan the work that needs to be done. Have we told them everything they are to do instead of discussing it with them and letting them help plan?

The Reason

Her'n—What makes that artist talk so funny?
His'n—Why, don't you see? He hasn't got any palate.

COLORED SCHOOL NEWS

On Friday, March 26, members of the Edenton High School Choir represented their school at the annual district music festival at W. S. Creecy High School, Rich Square.

The choir received a rating of "very good," while James R. Burke, a tenor, received a rating of "excellent" on his solo, "One God."

The choir is under the direction of Miss Helen Brayboy.

The regular monthly meeting of the PTA was held Tuesday night with the vice president, W. H. Collins, presiding. A feature of this meeting was a skit presented by the 11-B Grade "Together We Learn." Characters were Shelton Stanley, Margaret Mayo, Marie Halsey and Ruby Jordan.

The 5th grade will present its annual operetta, "Over the Garden Wall," April 23. John A. Wynn, Jr., is the coordinator.

The 11-A United States History class has been studying for the past three weeks "The Industrialization of the United States" and "Labor and Working Wages". The class has made several trips to nearby working concerns making observations of the labor and working conditions that exist today.

The class made trips to the follow-

ing places: Halsey Hardwood Company, Edenton Bay Packing Co., Inc., and the Double Cola Plant.

The class project is under the direction of Class Teacher J. E. Wilhoite.

Micro-organisms and Household Pests are now being studied in the biology classes of C. S. Newsome and Thomas I. Sharpe. Emphasis is being placed on the practical value of the information imparted. Experiments are to be carried out with a view toward the applicability of the findings, rather than a fear of the consequences of uncleanness.

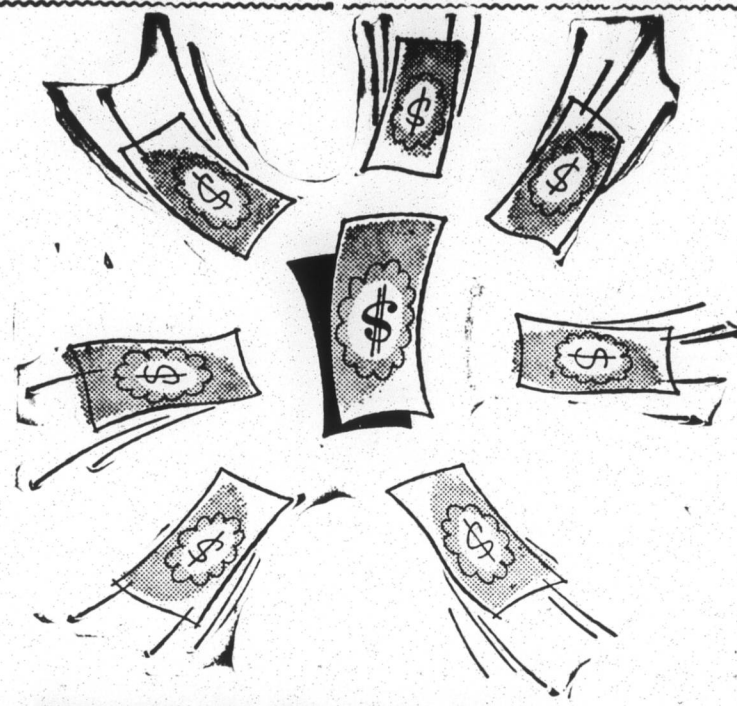

There will be a softball game Friday, April 16, at 2:00 P. M. This game will be played between the Boy Scouts and the Troop Committeemen. The admission to this game will be 15c. The proceeds will be used to send An-

gus Small, an Explorer Scout to the Boy Scout Ranch in New Mexico this summer on the Philmont Expedition.

The pre-school clinic for children who will be entering school for the first time in September will be held May 6-7 at the Edenton High School. Parents are asked to bring their children and not send them.

CANNON'S FERRY 4-H CLUB MEETS WITH WAYNE BUNCH

The Cannon's Ferry local 4-H Club met at the home of Wayne Bunch on Monday night of last week. Nine boys were present. Robert Marsh, assistant county agent, discussed projects with the boys and explained the many different kinds of demonstration contests which they can enter. The district contest for all the county winners will be held July 8 at Washington, N. C.

Peanut Growers:

\$1 gets SEVEN

**Proof that aldrin kills
the peanut soil pests!**

Tidewater Field Station, Holland, Virginia, reports: "Growers who treated their 1953 peanut soil realized a net return of \$7.09 for every dollar spent in treatment. By controlling southern corn rootworms, increased yields of 5 to 7 bags per acre were obtained in the counties surveyed."

"Equally important, though, was the improvement in the quality of the peanuts from treated soil. 3,250 acres in Nansemond county alone showed a 25% yield increase and an increase in quality of from 2¢ to 3¢ per pound, or approximately \$40,000 for the county."

Although these results were obtained in heavy soil, treatment of light soils promises to pay for itself many times over too.

Aldrin is by far the most popular soil insecticide on peanuts. Get aldrin from your insecticide or fertilizer dealer.

DO YOU HEAT WITH A FLOOR FURNACE?

**HAVE HEAT IN EVERY ROOM
with KLEER-KLEEN's New Perimeter Furnace!**

- Fits same opening as your present floor furnace.
- Every furnace equipped with dependable Pressure Burner.
- As many as 12 warm air runs connected to all parts of the home.
- Burns inexpensive #2 fuel oil.
- Up to 100,000 Btu/hr. heat output.

- Central cold air return built into furnace.
- Cool air blown for summer cooling.
- LAU 10 in. squirrel cage blower.
- No down payment — up to 3 years to pay.
- Furnace can be completely installed for as little as \$20 per month.

ALL KLEER-KLEEN Pressure Burners are Listed and Labeled by Underwriters' Laboratories, Inc.—an added measure of safety and protection!
