

## Treasurer Of U. S. Urges Motorists To Consider Children

### Says Every Child Pedestrian Is Human Caution Sign

One of the nation's greatest assets is its children, the Treasurer of the United States says.

Mrs. Ivy Baker Priest, speaking as a mother, points out that motor vehicles kill more children every year than any disease.

Mrs. Priest, who is one of the judges of the 1954 Carol Lane Awards for Traffic Safety, quoted National Safety Council figures that 8,500 pedestrians were killed last year.

"Of that total, almost a fourth were children under 14," she said.

"Spring means that the motorist must be doubly alert," Mrs. Priest pointed out. "Not only does spring bring more cars to streets and highways, but it is also a period of greater outdoor play and activity by children. Therefore, motorists should drive with extreme caution near schools, playgrounds, residential areas and other places where children may congregate.

"Always remember to expect the unexpected where children are concerned," Mrs. Priest warned. "Watch out for children suddenly darting into the street in pursuit of a ball, or for the youngster on a bicycle or roller skates. "Be mindful of the fact that every child pedestrian is a human caution sign," she said, "and you'll be doing your part to preserve our precious asset—our children—to enrich tomorrow's world."

Mrs. Priest has a long record of traffic safety activity. Prior to becoming Treasurer of the United States, she served as vice-president and director of the women's division of the Utah Safety Council in her home state.

She urged individual women as well as members of women's and parents' organizations to become active in traffic safety in their communities. Such women are eligible to enter the 1954 Carol Lane Awards for Traffic Safety—administered by the National Safety Council through a grant of the Shell Oil Co.—which are the nation's only awards to recognize the achievements of women in the field of accident prevention.

A \$1,000 defense bond and a bronze statuette will go to first place winners in both the individual and group categories. Three honorable mention awards are presented in each category. Nominations are open through June 30, 1954.

Women interested in entering the 1954 Carol Lane Awards may obtain additional information by writing Alice C. Mills, Director of Women's Activities, National Safety Council, 425 N. Michigan Ave., Chicago 11, Illinois.

#### Sure Have

Two distillers of Alabama moonshine were discussing their operation. "When I take my stuff into town," one of them explained, "Ah always drive mighty slow—'bout 20 miles an hour."

"Skeered of the law?" the other jeered.

"Nope," retorted the first. "Ye gotta age the stuff, hain't ye?"

#### DEPENDABILITY

AWKWARD, ugly, ungainly, the "ship of the desert" is a true friend of Man. Though the slightest breeze on the desert is like a blast from the mouth of a furnace, the faithful camel can be depended on.

Each ceremony is conducted with gracious simplicity, when we are asked to officiate. Constant application and years of careful study have won us our reputation for dependability.
