

Chicagoan Elected Rotary President

Convention of Rotary International Ends In Seattle Today

Herbert J. Taylor of Chicago, was elected President of Rotary International for 1954-55 at the 45th annual convention of that world-wide service club organization, which is completing its five-day session in Seattle, Wash., today (Thursday). The convention registration of more than 8,000 Rotarians and guests represented 8,200 Rotary Clubs with a membership of 387,000 business and professional executives in 89 countries.

This was the first Rotary International Convention to be held in the U.S.A., since 1951, the last two conventions having been held in Paris and Mexico City.

Rotary's Golden Anniversary Convention will be held May 29-June 2, 1955, in Chicago, birthplace of the first Rotary Club in 1905, as the culmination of a world-wide observance of Rotary's 50 years of service.

N. C. Leads Nation In 4-H Enrollment

North Carolina led the nation for the second consecutive year in 1953 in total 4-H Club enrollment, according to L. R. Harrill, state 4-H Club leader.

Harrill said North Carolina, with a total enrollment of 142,513 rural boys and girls actively engaged in 4-H Club work, led the second high state, Georgia, by more than 10,000. Georgia had 131,385 boys and girls enrolled in club work last year. Alabama was third high with 131,370 4-H Club members.

North Carolina's 142,513 white and Negro club members carried a total of 224,233 projects dealing with almost every phase of farm and home work. Some 158,418 projects were completed by 103,332 Tar Heel youths, making North Carolina the second ranking state in this important phase of the program. Some 113,788 Alabama youths completed projects, placing that state first in members completing projects. Georgia ranked third with 103,232 farm youths completing projects.

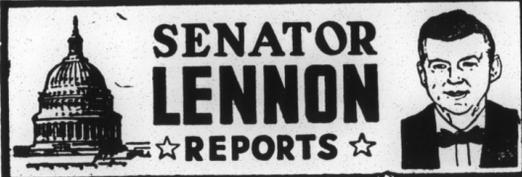

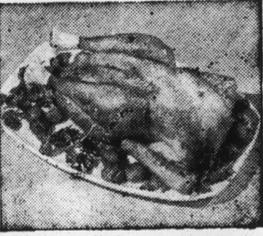

For the nation, there were 2,016,138 farm boys and girls enrolled in 4-H Club work in 1953. Some 1,597,503 of these completed projects.

And Strictly Cash
"I am in favor of a strong restriction of revolver sales," thundered Mr. Wombat of Chicago.

"Only one to a customer, I suppose?" responded Mrs. Wombat brightly.

The SS United States steams by tip of Manhattan Island in New York harbor enroute to Europe. Inset: Otto Bismarck, chef des cuisines of this superliner. For Father's Day, June 20, Mr. Bismarck has scheduled roast chicken with special stuffing as the menu feature. An SS United States survey shows that people aboardship eat more chicken than do landlubbers. Right: "Poularde a la SS United States" or roast, stuffed chicken.

Washington—Due to the rush of bar new starts in public housing for legislative matters in the Senate, it was necessary to return to Washington immediately after the election. It is very difficult to conduct a campaign and at the same time carry on the duties of the office. One of the rewarding features of politics is the opportunity to get acquainted with the people. I shall never forget the cooperation I have received and the friends I have made during the few months in the Senate.

Current Bills
In order to inform you of my voting position during the past few days, I am listing my votes on a number of current bills. The Senate passed with amendments the Agriculture Appropriations Bill for fiscal year 1955. On a close vote, the Senate adopted the amendment to increase by \$35,000,000 the loan authorizations for rural electrification, which I supported. I also voted for the amendment increasing by \$10,000,000 funds for the school lunch program. This proposed increased amount was defeated.

On the Federal Housing Bill, I supported the Maybank amendment to

will eliminate for all purposes the participation in public housing in the South. This amendment was defeated and I voted for the bill on final passage as it contained many fine features for aiding in the construction and renovation of private homes.

School Lunch Program

I am convinced that the school lunch program has been one of the most effective programs for good that our government has ever promoted. It has provided warm, nutritious food for millions of school boys and girls. In voting for the increased funds, I felt that this was an opportunity to do something for our country which will pay off in better manhood and womanhood in the future. This is in line with my views of cutting unnecessary foreign economic spending.

Tour

After the session of Congress ends, I am planning to take a tour of North Carolina to thank the people for the courtesies they have extended to me

as Senator. I also feel that it is proper for me to give a report on my stewardship during the session.

Reports
In reporting weekly on the doings of the Congress, I have attempted to tell you exactly how I stand on legislation. The newspapers have been very cooperative in this although some have not always agreed with the position I have taken. But they have printed this column because of their interest in you, the reader. It is hoped that the Congress will be through with its work by the end of July, but I seriously doubt that the work will be done, and my guess is that the session will not be completed until in August. I will continue to report to you on Congressional matters.

Passes
It is necessary to get gallery cards for admission to the galleries of the Senate and House. It is not necessary to have cards for admission to open sessions of committees. Many have thought it was necessary to have passes for the Army-McCarthy hearings. It is not.

This-And-That
The name of Armistice Day has been officially changed to Veterans Day . . . Senator Hoey's office staff has about completed packing his many papers, books, and materials and cleaning up the details of his office . . . The Finance Committee is continuing to hold executive sessions of the general tax revision bill.

Bulletin Describes Farm Grain Storage Facilities

"You Can Store Grain Safely on the Farm," is the name of a new farmers' bulletin which should be of great value to North Carolina farmers who plan to provide storage space for their own grain crops this year.

C. W. Overman, Chowan County farm agent for the State College Extension Service, said the new booklet may be obtained free by writing Office of Information, U. S. Department of Agriculture, Washington 25, D. C., and asking for Bulletin 2071.

The publication stresses the need for storing only grain with a low moisture content, outlines the basic requirements of a safe storage structure, and points out that some types of structures can be used for other purposes when not needed for storing grain. Methods and equipment for reducing moisture content of grain to a safe level and maintaining it during storage are described also.

Only clean grain should be placed in storage, said the county agent. Cracked grain, screenings, chaff, and dust provide favorable conditions for development of insect infestations. Even clean grain with a safe moisture con-

tent can't be stored and forgotten. Occasional inspection is necessary to detect leaks, insect infestations, and moist, molding or caking grain.

CHRISTIAN CHURCH SERVICES

Services at the First Christian Church have been announced as follows by the pastor, the Rev. E. C. Alexander:

Bible School, Sunday morning at 10 o'clock; morning service at 11 o'clock; young people's meeting at 6:30 P. M.; evening service at 7:30 o'clock. Wednesday Evening Bible Class meets at 7:30 o'clock. Everybody is welcome to all services.
