

## News About Clubs In Chowan County

By HATTIE SINGLETARY  
Home Demonstration Agent

President Eisenhower has proclaimed the week beginning July 25 as the 11th annual National Farm Safety Week. His proclamation calls attention to the importance of the farm safety campaign.

Farm families are urged to review their attitude to farm safety and to rename hazardous conditions in the home, on the farm and in the community.

Here is a check list of the ten "Farm Safety Commandments" which will help prevent farm accidents:

1. Keep machinery in good repair.
2. Operate tractors safely.
3. Know and obey all traffic laws.
4. Be fire-sighted.
5. Speak to animals when approaching them.
6. Be a good housekeeper.
7. Watch your step to prevent falls.
8. Know safety instructions.
9. Know and obey water safety rules.
10. Apply first-aid properly.

If farm families will abide by these commandments not only during the proclaimed "Safety Week" but all through the year, useless farm accidents will be prevented.

The Gum Pond Home Demonstration Club met last week with 14 of their 19 members present. That's quite a record for this "very warm weather."

Chowan 4-H Club members won many honors in the District 4-H Elimination Contest last week at Washington, N. C. District winners are now getting ready for the State contest.

Evangeline Copeland and Mary Sue Elliott, team dairy foods winners, have a busy schedule this week. They plan to give their demonstration at the following clubs: Monday, Chowan Home Demonstration Club; Tuesday, Beech Fork Home Demonstration Club; Wednesday, 4-H County Council, Wards Home Demonstration Club.

Ida Ann Blanchard, individual dairy foods winner, is also getting ready for the stiff State competition. Ida Ann plans to give her demonstration at the following places: Monday, Chowan Home Demonstration Club; Wednesday, Wards Home Demonstration Club; Thursday, 4-H County Council; Thursday, Enterprise Club.

## Dry Weather Ruins Much Chowan Corn

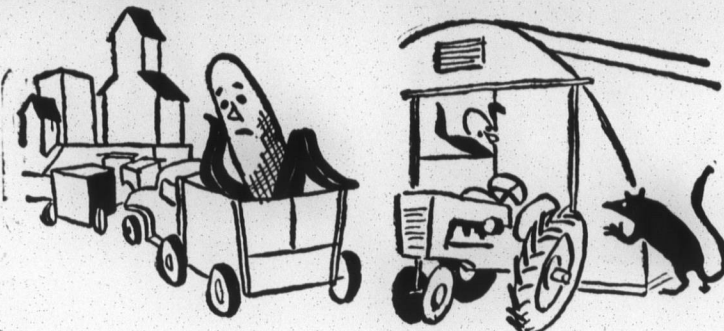

County Agent C. W. Overman reports that a considerable amount of corn has been ruined by the recent dry weather. However, Mr. Overman says if farms affected act quickly they can still grow milo.

Mr. Overman says: "Plant in rows like you would cane, using eight to ten pounds of seed per acre. Fertilize like you would for corn and side-dress with 60 pounds of nitrogen per acre."

## Jean Tanner Engaged To Donald E. Williams

Mr. and Mrs. Fielding F. Tanner of Charles City, Va., have announced the engagement and approaching marriage of their daughter, Jean, to Donald Eugene Williams, son of the late Mr. and Mrs. Thomas F. Williams of Acworth, Ga.

The bride-elect is the granddaughter of Mrs. H. T. Layton of Edenton. The wedding will be solemnized August 7 in the Edenton Baptist Church at 5:30 o'clock in the afternoon.

To get the most for your corn crop You hold it at harvest when prices drop. You store it and sell it later on. When most of the ready supply is gone.

It's safe from rats, clean and dry You find the quality stays real high. When the corn is sold, then you decide What else you'd like to store inside.

## Vets Question Box

Q—I am a Korean veteran with a service-connected disability serious enough to prevent me from getting commercial life insurance. Will my disability also stop me from obtaining GI permanent insurance available to disabled Korean veterans?

A—No. No matter how severe it is, your service-connected disability will not bar you from your permanent-plan GI insurance. But you could not get it if you had a non-service disability that would prevent you from meeting the good-health requirements of the GI insurance law.

Q—I am a Korean veteran, and I got out of service in July, 1952. What is my cut-off date for starting Korean GI Bill training?

A—You—and all Korean veterans separated before August 20, 1952—must begin training under the Korean GI Bill by August 20, 1954. Veterans separated after August 20, 1952, have two years from separation in which to begin.

Q—I am a disabled World War II veteran, and I'm planning to take vocational training under Public Law 16. Will VA stop my disability compensation payments once I start training and receive subsistence allowances?

A—No. You will continue to receive your compensation payments while you're in training under Public Law 16.

Q—I'm planning to take an evening course under the Korean GI Bill. Since I'll be attending less than half time, the VA told me I will receive an allowance equal to the school's established charge which non-veterans are required to pay. Will this established charge include money for books and supplies?

A—Books and supply charges will be included only if all students—veterans and non-veterans—are required

to pay for them as part of the school's established charge. If not, your allowance will cover only tuition and fees.

Q—I started Korea GI Bill training this past fall. Because of summer vacation, it won't be possible for me to be in training on the August 20 deadline date. Does that mean I won't be permitted to go ahead with my studies later?

A—No. So long as you began training before the cut-off date, it won't be necessary for you to be enrolled in school August 20. You will be permitted to continue with your studies at a later date, after the cut-off date.

Q—I'm taking on-the-job training under the Korean GI Bill. In addition, I would like to take a correspondence course in the same field. Could I receive a GI allowance for the correspondence course, as well as my monthly allowance as an on-the-job trainee?

A—No. The GI allowance for a correspondence course could not be paid, so long as you're receiving an allowance for on-the-job training.

Q—I was awarded a disability rating by VA, and I think it should be higher. I want to appeal. Is there any time limit on filing my appeal?

A—Yes. Your appeal must be filed within one year from the date VA made its original award.

## A SALUTE TO HIGHER EDUCATION!

A total of 59 colleges serve North Carolina, with individual enrollments ranging from 5,474 to less than 30 students! In June, 1953, nearly 6,000 seniors earned college degrees. Of this number, 81% were white and 19% were negroes. Our hat is off to these fine educational institutions which are contributing greatly in making North Carolina a better place in which to work, play and live.

Another contribution to more pleasant living for North Carolinians is the brewing industry's self-regulation program where brewers, wholesalers and retailers—in counties where malt beverages are permitted under State control—cooperate to maintain wholesome conditions for the legal sale of beer and ale.
